❖ The Iowa ❖

SAVINGS AND LOAN ASSOCIATION,

DES MOINES, - - - IOWA.

Capital Stock, \$5,000,000.

* DON'T! *

Don't waste your money. Invest in the Iowa Savings and Loan Association.

Don't pay any more rent. Borrow of the Iowa Savings and Loan Association.

THE IOWA SAVINGS AND LOAN ASSOCIATION

Will take investments of 60 cents and upwards per month and make them earn from 12 to 20 per cent. per annum, and guarantee absolute security. In other words, *a member paying in each month 60 cents for 84 months, or an aggregate saving of \$50, will draw out \$100*, thus making his small savings earn for him a profit that he could not possibly make it do any other way. What laboring person or wage worker can not, if he only would, save from 60 cents to \$6.00 every month from his earnings? TRY IT.

THE IOWA SAVINGS AND LOAN ASSOCIATION

Will loan a member \$100 and upward, on approved real estate security, at 6 per cent. annual interest, and he can repay the loan in monthly installments of \$1.20 and upwards. WHY PAY RENT? What industrious mechanic or clerk cannot afford to have a home of his own? IS THERE ONE? TRY IT! Examine our plan carefully, and if you want further information inquire of our agents or write the home office.

W. W. WOODARD, Secretary.

Home Office, Third Floor Iowa Loan and Trust Building.

DES MOINES, IOWA.

Introduction.

In presenting the Des Moines City and Polk County Directory at this time to our patrons and citizens, we take pleasure in stating that our population has more than doubled during the past six years, and that the indications are that Des Moines is making greater progress this year than ever before. The canvass has developed the fact that we have in the city, seventeen thousand, three hundred and fifty-four families, and this number multiplied by three and one-half, the average shown to be correct for this locality by the federal, also by the last state census, gives Des Moines a population of 60,739. The greatest gain in any single year in the history of the city has been during the past twelve months. The publication this year is for the city and county combined. In addition to the usual information found in city directories it contains the residents of the county outside of Des Moines, giving also the name, township, section of land and post-office address of the farmers. The county is well settled with a good class of enterprising citizens, the farms as a rule are well improved, and the class of improvements indicate prosperity and comfort. Outside of Des Moines the population is about seventeen thousand, so that Polk County has an entire population of about seventy-seven thousand, five hundred.

The growth of the city has but just begun, and the possibilities of the future can scarcely be calculated, as indicated not only in the rapid increase in population but in manufacturing and wholesale trade, as well as in public and private improvements, which have been simply surprising during the past two years. We would call special attention to the great amount expended in public improvements, the marked increase in business, in our post-office, our banks, loan and trust companies, home insurance companies and loan and building associations, also to our mining interests, as well as the advance in 1890 in whole sale and manufacturing interests; showing an increase over that of any previous year, and conveying a good idea of the prosperity of the city. We would also call attention to the table of statistics of business, and to those looking for new business locations we would refer to the article entitled "Inducements to Capitalists."

The resources and advantages of Des Moines, as shown in the unequalled transportation facilities, inexhaustible beds of coal and good water power, furnishing cheap fuel for manufacturing purposes, healthfulness of location, good society with the best of educational advantages, are the attractions which are annually bringing thousands to our city to engage in business or for residence. It is known as the greatest educational center west of the Mississippi river. Our public schools are among the best in the west, and our many colleges have fully twice the number of students of any previous year. Here are also a greater number of fine church edifices in proportion to the number of inhabitants than in any other western city, a fact which speaks well for the moral tone of Des Moines, and in view of the elements of culture and refinement which pervade society. The city when compared with others in the west is found to be the most desirable place in which to reside.

The directory has heretofore been published biennially, or about every eighteen months, but we intend to issue the Des Moines city directory annually hereafter. It was our intention to publish the city alone, this year, but finding that there was a demand for a new directory of the county we concluded to combine the two in one work, it being the desire of our many patrons. It will be remembered that since the last issue of the directory, the city limits have been extended two and one-half miles north, east and west, and one and one-half miles south making our present corporate limits six by nine miles. This was necessitated by the demands of our rapidly growing city, and it is scarcely necessary to add that the difficulties attendant upon the preparation of the directory, this year, were greatly increased. We have labored hard for the past twenty years to compile the best directories possible of our city, and we have reason to believe that we will be able to make the work more complete with each years experience. We have also from year to year compiled and published in the directory and other publications, such information setting forth the resources and many advantages of Iowa's Capital and Metropolis, as would best influence those looking for new business opportunities, or desirable homes, to locate in Des Moines.

The liberal patronage we have received is the best evidence of the esteem in which the work is held by our citizens, and in thanking those who have so generously supported us, in the past we reiterate the assurance that in the years to come nothing shall be wanting on our part to make the publication as correct and reliable as possible which will hereafter be published annually.

Respectfully,

J. P. BUSHNELL, *Compiler.*

TWENTY CENTS A DAY IS \$1,000 IN SEVEN YEARS.

The Union Building and Savings Association, OF DES MOINES, IOWA.

Organized under the Laws of Iowa, July 1st, 1890. First payment on Stock Aug. 26th 1890.

First Interest on Loan received September 30th, 1890.

First dividend January 1st, 1891. Eleven and seventy-five hundredths per cent per Annum.

Second dividend July 1st, 1891. Seventeen and fifty-five hundredths per cent per Annum.

BOARD OF DIRECTORS.

HON. A. J. BAKER, President and Attorney, (Late Attorney General of Iowa).

DR. LEWIS SCHOOLER, Vice President and Treasurer, (Dean Medical Department, Drake University).

J. W. MUFFLY, Secretary, (Founder of Iowa Business College and late Assistant Adjutant General Department of Iowa, G. A. R.)

S. W. MALTBIE, Manager of Agencies, (Insurance).

HON. O. B. AYERS, (President State Insurance Company and late Judge Fifth Judicial District).

G. T. CARPENTER, (Chancellor Drake University).

TRUSTEE

VALLEY NATIONAL BANK, Des Moines. J. J. TOWNE, President, W. D. LUCAS, Cashier.

The Association gives absolute security to its Stockholders. The Loan Fund cannot be used in any event for expenses or liabilities.

All Loans are secured by first mortgage on Real Estate of double the value of the sum loaned.

Invest your money where it is absolutely safe and gives the largest returns.

Soliciting Agents wanted and liberal terms offered.

HOME OFFICE ROOMS 46 AND 47 OFFICE BLOCK,

213 AND 215 WEST FIFTH STREET.

DES MOINES,

IOWA.

— THE —

IOWA DEPOSIT AND LOAN CO.

HOME OFFICE, 300 WALNUT STREET.

CAPITAL STOCK, - - \$10,000,000.

— OFFICERS. —

JOHN WYMAN, President, (Ex-President New England Loan & Trust Co.).

WALTER MCCAIN, Vice-President, (Ex-President Des Moines Street Railroad Co. and Director in Des Moines National Bank).

E. C. SPINNEY, Secretary, (Ex-President of Burlington College and General Manager of Iowa for U. S. Life Insurance Co. of New York).

J. G. GARDNER, Auditor, (Attorney at Law).

V. F. NEWELL, Treasurer, (Cashier of the Des Moines National Bank).

WISHARD & SHERMAN, Attorneys.

THE IOWA DEPOSIT AND LOAN COMPANY has issued a new and revised certificate, which provides for more liberal withdrawal values than that of any other State company. The principal objection urged against Savings, Building and Loan Associations in general is the fact that a member, as a rule, cannot withdraw under two or three years without loss. This often proves a great hardship to the man of limited means who cannot, owing to adverse circumstances, keep up the monthly payments on his stock, or to persons wishing to change their location, or to parties wishing to invest elsewhere.

THE IOWA DEPOSIT AND LOAN COMPANY has removed all these objections with its new certificate. Withdrawing members, after making three monthly deposits on their shares, can have their money at any time by giving thirty days notice. This is as it should be. We believe it is an injustice to charge a man more for keeping his money than it will earn. We believe a depositor should get with interest what he entrusts to the keeping of another.

Members of the **IOWA DEPOSIT AND LOAN COMPANY** holding the old certificates will be granted the same withdrawal privileges as those to whom are issued the new certificates. Ours is the first and only company to adopt this valuable feature.

This Company pays its dividends quarterly. These have been, ever since its organization, 4 per cent, or at the rate of 16 per cent per annum. Deposits of 60 cents and upwards received. Absolute Security Guaranteed.

Call on or address the Secretary,

2nd Floor Youngerman Block,
211 and 212 WEST FIFTH STREET.

E. C. SPINNEY,
Des Moines, Iowa.

Des Moines

THE MOST DESIRABLE CITY FOR BUSINESS OR RESIDENCE IN IOWA—
MANUFACTURING AND BUSINESS INTERESTS—TRANSPORTATION
FACILITIES—AND INDUCEMENTS TO CAPITALISTS—
SOCIAL, BUSINESS AND EDUCATIONAL AD-
VANTAGES, ETC.

Thousands are locating in Des Moines annually, for business and permanent homes, because of our healthful climate, beauty of location, our social, moral and educational advantages as well as on account of our commercial supremacy and to all who are seeking new locations for health, wealth and pleasure, we say confidently that no portion of this or any other country offers greater inducements; and to all good citizens we extend a hearty welcome.

Des Moines by its beauty of location, natural and acquired advantages, and the steady persevering work, and faith shown by our enterprising citizens, has forced its way into its present prominence now numbering 60,739 people by careful estimate, counting three and one half to each name in resident directory. None of the methods so generally adopted to boom particular localities, have been employed but the growth of the city is due to its many advantages. The increase from 1880 to 1890, as shown by the census reports, was 130 per cent. The city contains an area of fifty-four square miles, lying at the junction of the Des Moines and Raccoon rivers, both of which are bordered with heavy timber on the hills and bluffs

which rise gradually from these rivers. This produces an effect at once pleasing and agreeable, affording also the best of drainage, and conducing to the health of the city. It is far from competing cities, being 358 miles from Chicago, 366 miles northwest of St. Louis, and 297 miles from St. Paul and Minneapolis, and no city in Iowa approaches it in size. The city is in the center of the great corn belt and blue grass region, and in the midst of the great coal fields of Iowa.

Des Moines is to-day the greatest railroad center; and we believe, is destined to become the greatest commercial and manufacturing city west of Chicago. It has seventeen different railroad connections by which its trade reaches out to every county in the state, and no portion of the state is over ten hours away, making this the convenient market for a large extent of territory. The steady, rapid growth in the volume of trade, the growing reliability of the convenient character of the business men of the city all attest the solidity of our commercial interests and guarantee our future prosperity.

IMPROVEMENTS.

The improvements during the last year have been so rapid, that some, even of our

citizens, fail to realize the aggregate. The suburbs of a year ago have become more closely allied with the central part of the city, while the business portions have become more metropolitan. The amount expended in general and public improvements was \$1,820,973, besides \$1,714,080 expended for new residences.

Among the important public improvements already projected this year may be mentioned the grading and beautifying of the capitol grounds at an estimated cost of \$125,000. The City Council has ordered about twelve miles of brick paving and cement curbing for this year, and extensive additions to the lines of the electric railway are assured. This railway now has more than forty miles of line in operation, with steel rails and unusually complete equipment, and is regarded by experts as one of the finest plants of the kind in the United States.

Whichever way you drive activity and industry prevail all over the city. Building is progressing in earnest, and the fine blocks going up in the city proper are being supplemented by a large number of residence buildings in the suburbs. There is scarcely now a good vacant store-room in the city; the buildings are all needed, and more must be built to accommodate the growing demand.

Houses to rent were never scarcer, and many people who have heretofore rented are buying desirable homes. The people of Des Moines have good grounds for the faith in the city, for the amount of building that is being done at the present time is simply wonderful. New residences are going up on every hand. No matter what part of the city you go into the sound of the saw and hammer greets your ear, and you see the busy workman engaged in building houses.

Many of the improvements this year have been in the outer portions, suburban or new residence parts of the city, so that

in the progress of their erection the work has not been seen by the general public, and there is every indication that the improvements in 1891 will exceed those of any previous year.

Methodist church, Lyon street.....	1,800.00

TRANSPORTATION FACILITIES.

To our railroads is due more than to any other single agency the present prosperity of Des Moines. The attractions which our city presents to enterprise, capital and skilled labor, with all her natural elements of productive wealth, have been developed to a great extent by her extensive system of railroads. Besides the immense number of freight trains, over ninety passenger trains arrive and leave the city daily.

The Chicago, Rock Island & Pacific Railway reached here in 1867. It is one of the grand trunk lines of the state, and ranks among the first roads in the Union.

The Des Moines Valley, formerly known as the Keokuk & Des Moines and Des Moines & Fort Dodge roads, is one of the principal branches of the Rock Island. It is one of the most important lines in the north and south lines of the state. It connects Des Moines, Indianola & Missouri, and Des Moines, Vinterset & South-Des Moines. It is a branch of the Rock Island.

The Chicago, Burlington & Quincy is one of the greatest trunk lines of the state, and is owned and operated by one of the wealthiest of western corporations. It gives Des Moines direct connection with St. Louis as well as Chicago.

The Des Moines & Kansas City road is a branch of the Chicago, Burlington & Quincy, and extends from Des Moines to Chariton, St. Joseph & Kansas City.

The Chicago & Northwestern was the first of the great trunk lines to connect with the Union Pacific at Council Bluffs. It is a strong competitor for passenger and freight business.

The Wabash, St. Louis & Pacific affords direct lines to St. Louis and the East.

An important branch of this road is the Des Moines & Northwestern, which extends through the northwestern counties of Iowa, making tributary the extensive

wheat growing regions of Minnesota and Dakota.

The St. Louis, Des Moines & Northern is another branch of this same line which runs north to Boone.

The Chicago, St. Paul & Kansas City extends from Chicago and St. Paul through the state from northeast to southwest.

The Des Moines, Osceola & Southern is a line passing southward to St. Joseph and Kansas City.

The Chicago, Milwaukee & St. Paul enters the city by short connection over another line.

These roads afford SEVENTEEN different and distinct outlets by rail, and these outgoing roads so intersect others as to afford quick and direct communication with the ninety-nine counties of Iowa, and the country at large. These lines are developing some of the richest agricultural regions tributary to Des Moines, and gather here an immense and growing traffic. The facilities this system gives to wholesale interests, manufacturing, coal mining, lumber, stock and grain shipments, cannot be fully estimated, but it is to be taken for granted that our citizens appreciate the great benefits derived from our railroads. The principal lines of road in the State, which are the great national highways across the continent nearly all reach Des Moines by main or connecting lines, and are among the best equipped in the country, as regards both, road beds and rolling stock.

COMMERCIAL AND MANUFACTURING INTERESTS.

As a natural manufacturing center, and as a distributing point Des Moines possesses advantages unequalled by any other western city. To make the place a great industrial center is an object which engages the united efforts of her citizens.

Upon the manufacturing industries of a city, primarily, depends its prosperity,

its growth and its metropolitan advancement. Commerce and prosperity are supplemental and inter-dependent; likewise commerce and industry.

The questions which present themselves to the wide-awake business men are, what are the facilities for securing the raw material and for shipping the manufactured product, and what is the extent of territory tributary from which the trade naturally comes? In reply to these questions you have but to consider our superior transportation facilities in the many railroads reaching out in every direction; also cheap fuel, good water power, cheap lands for the location of factories, or for residences for operatives, healthy climate, low price of living, and building material as cheap as any place in the West.

With the numerous railroad systems intersecting the city and country like spokes in a wheel in which Des Moines is the hub, reaching out by direct routes to every point important to the manufacturer, the city affords unparalleled advantage as regards transportation facilities. The question of raw materials is of course intimately connected with that of transportation and the advantages of Des Moines in that respect need no comment.

Des Moines has at present two hundred and twenty-five factories, many of them employing large numbers of operatives. The success of the factories already established and the rapid settlement of the adjacent country, are warrants for the establishment of many more. Our factories are shipping all over the world, as our goods are ordered in large quantities from all parts of the country.

It is of interest to know that in 1890 some fifty new enterprises, manufactories and industries of many kinds sought and actually found a location in Des Moines. These include some of the largest capitalized institutions in the city. They are

backed by men of means, ability and faith in the progress and the growth of Des Moines—enough faith to invest money and energy in her upbuilding.

We have enterprising and public spirited citizens who willingly donate excellent sites for factories, and the city council, with commendable liberality, remits the taxes for a period of years to all factories employing a certain number of operatives. It is gratifying to know that Des Moines is making steady progress in securing new industries, and in increasing the capacity of factories already here.

COAL.

The matter of fuel is one of so great importance that it alone has been charged with keeping manufactories in the east, because it could not be procured in the west at a reasonable price. This cannot be said of Des Moines. The matter of fuel is the least of the difficulties in the way of our metropolis.

Here is found an inexhaustible supply of the best coal, the present price of which in Des Moines, delivered in the bin, are as follows:

Selected lump, the very best	
for grates, etc.	\$2.25 per ton
Good lump, for furnaces	2.00 "
Pea, used to heat School	
Buildings,	1.25 "
Slack, used by every factory	
in the city,	.50 and .75

The highest price at which the best lump coal has been sold in Des Moines during the past two winters, is \$2.50 per ton.

Careful scientific tests show our 50 cent coal to have 93 per cent. of the heating capacity, and our manufacturers testify that in the production of steam it produces results within 7 to 15 per cent. as good as the best lump coal.

It is cheaper than natural gas where that article must be piped any distance.

The cost of fuel for steam purposes, by

actual comparison, is in Des Moines but one-fourth what it is in Omaha and Kansas City, and less than one-fifth what it is in St. Paul and Minneapolis. The very fact of the low cost of fuel in Des Moines has brought many industries here in the past, and will bring a multitude more in the future. Electric power for small factories can be obtained at a very low cost. We have three electric light and power plants.

WATER POWER.

The laws of Iowa confer the most power upon water power improvement companies. They have the same power as railroad companies to condemn land for the right of way for canals, waterways, buildings and other necessary uses. Des Moines holds the scepter for the best water power in the State. The Des Moines river flows through the middle of the city, giving her an east and west side, thus furnishing us the very best of water. An organization was effected last year known as the Des Moines Water Power Company, who built a splendid new dam across the Des Moines river, at Center street, four hundred and sixty feet long having a fall of eight feet. They also built a new power house where this waterfall is utilized in the production of electric power of fifteen hundred horse power, which can be increased to a maximum of twenty-five hundred. This is used in the production of light, both arc and incandescent, and for running the machinery of factories, and is amply sufficient for all the factories which might be built on both sides of the river for some distance, giving employment to thousands and profitable investment to vast capital. The east side of the river, having the same power is now idle, and presents a rare opportunity to locate manufacturing enterprises also.

1890 FACTORY PRODUCTS.

The following table gives the value of

manufactured products during 1890 together with the increase over the previous year. These figures were collected with great care, and may be considered correct, as they were compiled from the books of the manufacturers.

	Amount produced	Increase over 1889.			
Artificial limbs....	\$ 5,300	\$ 1,700	Cement and concrete work.....	136,000	68,000
Art goods (new)....	5,200	5,200	Coffee and spices...	481,200	65,200
Agricultural steam boilers.....	38,000	18,000	Cotton.....	93,750	31,250
Barbed wire.....	525,000		Churns.....	1,850	475
Boiler and iron work (not including foundry or ma- chine work).....	177,240	29,540	Carbonated stone...	17,000	4,500
Blank books and binding (included in printing).....			Dyeing.....	24,500	6,000
Bottling Works.....	55,500	16,000	Excelsior.....	10,000	5,000
Brooms.....	17,200	2,200	Electrical appliances	31,000	6,000
Broom holders.....	5,000	2,000	Extracts, perfumes, etc.....	50,750	7,750
Brick.....	306,366	80,836	Flour.....	124,000	14,000
Butchers' Blocks, etc.	2,700	400	Feed.....	85,750	6,750
Bee hives and apiary supplies.....	12,000	2,000	Foundry and ma- chine work.....	142,200	28,700
Brass and iron spe- cialty work.....	37,750	6,750	Furniture and up- holstery goods...	456,320	73,000
Bicycles, etc.....	15,800	3,300	Furnaces.....	51,000	23,000
Books, law and mis- cellaneous.....	75,000		Gloves, mittens, etc new.....	23,000	23,000
Boiler compound...	10,000	5,000	Hams cured... ..	212,500	62,500
Coke,	21,000		Harness, saddlery, etc.....	307,000	7,000
Corn, e. galvanized iron, etc.....	82,000	2,000	Hats and caps.....	15,990	8,800
Chemical and phar- macautical goods	19,000	18,000	Jewelry.....	9,000	8,500
Carriages, wagons, etc.....	253,000	17,000	Knit goods.....	3,700	2,000
Cigars.....	240,700	20,000	Lithographing.....	41,000	
Coal screens and iron work.....	5,950	2,400	Linseed oil.....	387,500	77,500
Confectionery.....	342,000	129,000	Malt.....	12,000	
Corn meal, etc.....	32,940	5,400	Marble and granite work.....	113,500	16,000
Cooperage.....	107,500	21,500	Mill furnishings etc	105,000	20,000
Crackers.....	275,000	35,000	Millinery, for job- bing trade.....	175,000	20,000
			Medicines, proprie- tary.....	319,600	89,600
			Oatmeal.....	155,000	
			Office fixtures and planing mill pro- ducts.....	118,000	29,250
			Preserves, jellies, new.....	14,700	14,700
			Photographers dry plates.....	4,500	500
			Paints.....	37,200	7,100
			Pumps and wind mills.....	180,000	34,300

Photo engraving....	6,000	1,000
Peanut roasters....	35,000	5,000
Pottery.....	77,560	11,560
Pork packing.....	2,651,250	530,250
Printing.....	1,227,050	81,450
Paper boxes, includ- ed in printing.....		
Plows.....	18,500	2,500
Scales, new.....	5,000	3,000
Shirts.....	19,500	2,500
Show cases and stained glass....	40,000	3,500
Soap.....	215,000	74,500
Stone cutting.....	43,000	13,000
Starch.....	468,750	
Spring beds, mat- tresses, etc.....	95,490	7,600
Stamps, stencils, etc	4,400	1,130
Suspenders.....	50,000	12,000
Shoe uppers.....	7,000	2,000
Sewer pipe.....	98,000	14,000
Shears and cutlery	3,900	1,200
Sanitary furnaces..	40,000	5,000
Stock food (new)..	10,000	10,000
Trunks.....	19,000	10,000
Tents, awnings, etc	12,500	4,50
Vinegar, pickles, etc	101,000	30,650
Washing machines	9,000	4,000
Woollen goods.....	200,000	50,000
Wood carving (ex- clusive of furni- ture).....	4,250	750
White bronze monu- ments, etc.....	85,000	10,000

\$13,152,156 \$2,049,941

The factories recently established here have added several thousand to the population, and will contribute largely to the support and maintenance of the industrial classes in the future. The people of Iowa's Capital are thoroughly awakened to the importance of manufacturing enterprises, and are determined to make their city what the favorable location and abundant natural resources indicate it should be—the leading industrial center of the west. Among the industries that

are needed and for the manufacture of which Des Moines is well adapted, may be mentioned the following:

Agricultural implements of all kinds, brushes, baskets, bags, beet sugar, boots and shoes, canning of vegetables, carriage (additional), cotton goods (additional), door and window screens, fire brick, flour (additional), feed and mill stuffs (additional), furniture (additional), gloves and mittens (additional), glue, ink, knit goods, linen goods, merchant iron, nails, overalls, organs, paper—print and wrapping, pumps (additional), pressed brick (additional), potteries (additional), paints (additional), rolling mills, soap (additional), starch (additional), stoves, tanneries, tinware, tools, tool handles, twine and rope, terra cotta, varnish, window shades, wooden ware, wire goods, etc.

WHOLESALE INTERESTS.

Next to our manufacturing interests, the wholesale business is most important to the commercial growth of the city.

The pride of any city is its commerce. Let a city become a distributing center of large quantities of merchandise desired by the people, and the foundations of its prosperity are deeply laid. Commercial supremacy, except in the presence of great and unusual factors, means manufacturing supremacy.

The greatest advantages which the great cities of the world present is the fact that they are the entrepots of trade. Buyers frequent their marts and take from them goods to supply the wants of mankind. This being so the factory must be there to furnish the goods required by the merchant.

With a knowledge of this great law of business nothing can be a better prophecy of the prosperous future of Des Moines than the steady growth of her jobbing trade, which is increasing rapidly in all directions year by year, and the year 1891 will, without doubt, far eclipse all of its predecessors as to the volume of business

transact. That Des Moines has grown into prominence as one of the leading commercial cities of the West, is largely due to her wholesale trade. As a business center, no city in the State can compare with her as evidenced in the statistics of business for 1890, when compared with other cities of Iowa.

The jobbing trade of Des Moines in 1890 exceeded that of 1889 by \$4,966,451, and amounted to \$28,748,741. It employs four hundred and fifty traveling salesmen. A detailed statement of the lines of trade, the amount of business transacted and the increase over the year 1889 in each is given herewith for the year 1890:

WHOLESALE BUSINESS—1890.

	Amount.	Increase.
Agricultural imp's....	\$2,782,550	\$364,000
Agricultural steam boilers.....	33,000	18,000
Alcohol and liquor (estimate).....	400,000	175,000
Barbed wire.....	525,000
Brick.....	306,336	80,836
Books and stationery..	503,000	76,000
Brooms(from factories)	17,200	2,200
Boots, shoes and rubbers.....	790,000	110,000
Butter, cheese, eggs ..	1,150,000	300,000
Butchers' tools, etc...	25,000	15,000
Coke.....	21,000
Clothing.....	63,000	21,000
Carriages, etc., (independent of implement houses).....	187,500	41,000
China and glassware..	352,000	27,000
Crackers.....	350,000	110,000
Coffee, spices, etc.....	391,200	65,200
Cigars.....	326,850	60,000
Commission and produce.....	634,840	126,970
Coal, hard and soft (exclusive local mines).	167,000	17,000

CLAYS.

The clays found in the hills in and about the city, add no small value to the industries of Des Moines, as evidenced by our extensive brick yards, twenty-nine in number, and the buildings of our city, small and great, demonstrate the excellence and stability of their product. A superior article of paving brick is also manufactured here, and so great is the demand for it that it is impossible for the manufacturers to keep pace with their orders. Not only is clay for the manufacture of common brick abundant, but the finest quality of white or "Milwaukee" brick may be made in our vicinity. Fire clay abounds in connection with our coal deposits, as well as the best and most valuable of coal measure clays—potter's clay—which is found of a superior quality and the products of our extensive potteries find markets hundreds of miles

away. We have the largest drain tile works in the state, and their product is greatly appreciated by farmers in every direction, and this is also true of our artificial stone and sewerage pipe manufacturers. Clays have been tested which proved unexcelled for the manufacture of mineral paints. Actual experiment has shown that all around our city, near the surface of the ground, there exists excellent clay, suitable for the finer grades of brick and terra cotta manufacture.

Parties who have made a study of the ceramic arts for years, in the interest of terra cotta manufacture, and have visited the leading establishments of Europe, where clay is manipulated for manufacturing purposes, declare that our clays are peculiarly fitted for this work, and tests prove them of a quality equal to the European clays, in some localities imported to manufacture the finer grades of pressed brick, terra cotta and fancy pottery wares. In fact, there are more than sixteen distinct varieties of clay suitable for the manufacture of all varieties of wares, from the finest to the coarser and rougher, and these beds have been barely touched, but lie awaiting the development which will surely come to them in the future.

SANDS.

An extensive deposit of silicious sand of excellent quality exists near Des Moines, which has been proven, by actual test, capable of making glass of superior whiteness and brilliancy, equal to that made from sand brought from other states. The fact that the quality is unexcelled and the quantity inexhaustible, should be sufficient inducement for the establishment of a large glass factory here in the near future. The sands lying in bars along our two rivers are extensively used in the manufacture of artificial stone, and for building purposes.

POST OFFICE.

The United States Court House and

Post Office is a fine structure built of Joliet stone, three stories and basement and is occupied by the post office department and United States Courts, and all Government officials residing here. The transactions of the post office are a very fair index to the general business of a city, and the showing in the annual statement is certainly very gratifying.

The following report from Postmaster Brandt shows the business of the Des Moines post office for 1890.

FINANCIAL INSTITUTIONS.

There is no more accurate criterion of prosperity or the reverse in any city than the degree of activity shown in the reports of the clearing house, so closely related to its producing and distributing industries are the banking facilities. Des Moines is coming to the front in its bank

clearance statements. The clearances have so far this year shown an actual increase from week to week of from twenty-five to fifty per cent more. The increase represents an actual increase in business. For a long time Des Moines has been struggling upward toward the \$1,000,000 per week figure and this has now been reached and passed.

Comparative statements rank us far in advance of any city of the same population in the west in number and amount of surplus deposits.

BANKS.—The banks of Des Moines draw from the principal mercantile and corporate institutions throughout western and northern Iowa, and furnish a safe deposite for the bankers and merchants in the counties of central Iowa. They are as follows:

Citizens' National, Iowa National, Des Moines National, Valley National, Capital City, Fairburn & Aitchison, and the Des Moines. Polk County, American, State, Peoples, Marquardt, Home and Grand Avenue Savings Banks.

LOAN AND TRUST COMPANIES.—There are also a number of strong and reliable loan and trust companies, all of whom are doing a large amount of business. They are as follows: Iowa Loan and Trust Company, Central Loan and Trust Company, New England Loan and Trust Company, Security Loan and Trust Company, Lewis Investment Company, Stott's Investment Company, Des Moines Loan and Trust Company, Continental Loan and Trust Company, and the Farmer's Loan and Trust Company.

Eastern investors have universally found their loans made in Des Moines safe and sound, and to-day there is no other city in the west that stands so well with capitalists as Des Moines.

HOME INSURANCE COMPANIES.—There are fifteen institutions including fire, life, live stock and accident, in addi-

tion to an army of agents representing every company, in good standing in the country. The strict insurance laws of Iowa have tended to materially protect the policy holders in the companies doing business under a state charter. The home companies are as follows: Fire—State, Hawkeye, Capital, Des Moines, Merchants and Bankers, Fidelity Mutual, Mill Owners Mutual and Farmers Mutual. The life companies are the Equitable of Iowa, Bankers, Des Moines, Royal Union Mutual, Odd Fellows Annuity, and St. Stephens Brotherhood, while the Northwestern Masonic Accident and Northwestern Live Stock complete the list. These companies received in premiums last year, nearly two million dollars, an increase of over a quarter of a million the year before.

LOAN AND BUILDING ASSOCIATIONS—We have a number of loan and building associations, strong organizations, who are doing a good business and who have been important factors in building up the city. Through this means many who could not otherwise have been enabled to build are to-day in the enjoyment of pleasant and comfortable homes of their own. The companies are as follows: Iowa Savings and Loan, Cottage Home, Iowa Deposit and Loan Co., Iowa, Iowa National, Polk County, Syndicate, and Union Loan and Building Association.

REAL ESTATE.

The demand for real estate has been and is now, good—the recorded transfers for the year of 1890 amounting to nearly eleven millions of dollars by actual computation from the record, or about a million per month. It is a well known fact and admitted every where, that Des Moines real estate—both business and residence property—is valued much lower than in any other city in the west. In fact values are so moderate that any investment in any part of the city at present prices could not possibly be a mistake.

The prices fixed upon property to-day are such as absolutely insures a great degree of profit to him who buys. Des Moines' growth has been the outcome of legitimate demands for enlargement. When these things are considered it is not surprising that there is a firmness apparent in Des Moines real property, with a certain prospect of a rise in valuations.

The activity in real estate is principally in property intended for large business houses and office buildings, or for magnificent residences, but the demand is great for manufacturing sites, for smaller business houses, for homes for tradesmen and artisans, and for the necessities of a constantly growing population. New additions are being laid out, which, while sufficiently near to the business center to be easily reached by our numerous lines of rapid transit, are sold at prices which offer unsurpassed inducements to those of modest means—working men, clerks, and those doing business upon a small capital, to insure homes of a comparative economy of cost, and which will increase in value from year to year. The confidence of its residents in the future of the city is evinced by the general demand on the part of those able to invest for a site for a business house or a home. The advantages of Des Moines are being extensively advertised, and the consequence is that the city is growing more rapidly to-day than ever before, so that every man's business will increase with the growth of the city and every man's property is bound to grow in value. The actual figures on real estate transfers during the year 1890 were \$10,881,000.

CHURCHES.

The churches of Des Moines number sixty-five, divided among the various denominations as follows: Baptist, six; Methodist, sixteen; Presbyterian, six; Congregational, four; Lutheran, seven; Christian, four; Evangelical, five; United Presbyterian, three; Episcopal, two

Friends, two; Roman Catholic, three; Hebrew, two; United Brethren, two; Seventh Day Adventist, one; Latter Day Saints, one; Unitarian, one.

Many of these have elegant and imposing houses of worship, and a few are among the finest church buildings in the West. That Des Moines is known throughout the country as a city of morals, and her citizens as law-abiding, cultured and refined, is due largely to the influence of her numerous churches and schools.

THE YOUNG MEN'S CHRISTIAN ASSOCIATION, which has a large and flourishing branch in Des Moines, numbering several hundred members, is a power for good. It is now established in a permanent home of its own, a large and handsome building, fully equipped with reading rooms, parlors, library, music hall, gymnasium, baths, etc. The rooms are always open for young men to visit, and to spend their evenings or leisure hours, and any assistance that can be given them, is cheerfully rendered.

EDUCATIONAL ADVANTAGES.

Education is the corner stone upon which Iowa has built such a superstructure as has made her school system the admiration of the world, and in no portion of the State are the educational advantages so varied and complete as in our city. The controlling minds in the public policy of the city have always been in favor of liberal measures for increasing and perfecting her educational facilities, which have become a source of pride and gratification to her citizens.

The Des Moines public schools, for excellence of work, won a bronze medal at the Centennial in Philadelphia in 1876; also a diploma at the World's Fair, at New Orleans in 1885.

In seeking a home one considers what a place can offer to his children in the way of educational advantages, and of

these Des Moines has all that can be desired. Beginning in the kindergarten, which has been termed "the enchanted entrance to the Temple of Learning," the pupil can pass through the various grades of the public schools, graduating from the High School, then pursue a course in one of our colleges, and finally in our professional schools, can fit himself for his chosen work in life, thus obtaining a thoroughly finished education at home. The excellence of our educational facilities has contributed largely to the rapid growth of Des Moines, as very many families of refinement and culture have located in our city, in order to secure the best advantages for their children.

DES MOINES COLLEGE.

The oldest educational institution in Des Moines, outside of the public schools, is Des Moines College, it having been founded in 1866. It is under the auspices of the Baptist denomination, and its history has been full of all the changes incidental to founding a school of higher learning in a western city, but this year has seen it placed upon a solid financial basis. It has secured \$100,000 for permanent endowment and sufficient in addition to provide for all its indebtedness. This makes it one of the best endowed colleges in the State. It has a fine, large campus on West Ninth street, a short distance from the business center, and commodious buildings. The faculty is composed exclusively of graduates of colleges of good standing. They are all scholarly and capable instructors. The president of the institution is Rev. H. L. Stetson, D. D., through whose efforts and plans very largely the college has been placed in its present prosperous condition. The number of students the past year was double that of the preceding year. It has always been the aim of

this school to secure the best scholarship and it has the highest grade of college work of any school in this section of the country. The requirements for admission to the Freshman class are the highest of any college in the State. The college has been highly favored in the class of students it has had, a large per cent. of whom have been Christians, thus a healthful moral tone has always existed.

It offers to young men and women the advantages of an education of the higher grade, under men and women who have had thorough training for their work and wide experience in teaching.

DRAKE UNIVERSITY.

Drake University is under the auspices of the Christian denomination. It is located in a beautiful grove in the north-western portion of the city, the college building is a handsome structure, and the college campus contains eight acres, on a slight knoll, beautifully diversified with magnificent forest trees. This school has just closed its tenth session, and each year has shown an increase in attendance, facilities for instruction, and general efficiency.

As showing the reputation of the school for advanced and thorough work it is worthy of notice that sixteen other colleges have contributed to the advanced and professional classes. Several of these students from other institutions have been pursuing post-graduate courses in the literary and scientific departments of this school.

The college department of the University already organized include Collegiate, Normal, Preparatory, Theological, Business, Law, Medical, Musical and Art schools. They have an aggregate teaching force of more than fifty able and experienced instructors, and are well supplied with apparatus, libraries, museums, and other helps.

The location—Des Moines—adds a

peculiar interest to the Law and Medical departments. A city of Jurists, Libraries, Courts and Legislatures; of Hospitals and eminent Physicians and Surgeons.

A building a half block from the Post-office has just been purchased for these two schools.

CALLANAN COLLEGE.

This college, which was formerly an independent school, is now one of the colleges of Drake University. It owes its existence to the liberality of Mr. James Callanan, of this city, for whom it is named. The large college buildings are pleasantly located on Eleventh and Pleasant streets, the grounds are admirably adapted for the purposes of the school and command one of the most beautiful views about the city. At this college are located the normal, musical and commercial departments of Drake University, with a full and efficient faculty.

Its thorough training course for the beginner, and its now famous School of Methods, its Musical and other Summer Schools, mark it many degrees above the average Normal School.

HIGHLAND PARK NORMAL COLLEGE.

This institution of learning, situated at Highland Park, and overlooking the whole city, has had a phenomenal growth. The gentlemen who built this college conceived the idea of building and thoroughly equipping the school with the best faculty which could be secured, as well as the very latest apparatus, and then opening the doors for students, a novel idea and a reversal of the usual custom. In this bold, yet business-like undertaking, their hopes were more than realized.

Opening September 2nd, 1890, the attendance the first term was three hundred and sixty-four, and during the first year more than eight hundred students were enrolled. There are many reasons for this unequaled prosperity.

The location, the accommodations, the number of departments, the fine equipments, the strength of the faculty and the minimum expense have all combined to make it a popular school from the beginning.

It is a school where a student may fit himself for any profession. It is thoroughly Christian, but non-sectarian. In organizing the faculty of this college great care was used in selecting the teachers, and every teacher selected was chosen because of his ability to teach.

The courses of study are Preparatory or Review, Didactic, Special Training; Scientific, Classical, Literary, Civil Engineering, Electrical Engineering, Pharmacy, Business, Music, Art, Telegraphy, Shorthand and Typewriting, and Elocution.

The accommodations at Highland Park College are not equalled by any other school in the west. The college building itself is provided with large, light, airy recitation rooms, that are models of neatness and taste. The rooms for students are all that could be desired. They are large, light and airy, heated by steam, lighted by electricity, water on every floor of the buildings and every convenience that the student needs. Everything is new, clean and neat.

No expense has been spared in the thorough and complete equipment necessary in every department of the college. The library is a remarkably choice collection of books containing about 4,000 volumes of the best reference books and wholesome literature. The apparatus for the successful prosecution of the work in the different departments is all that could be desired in any school. A brilliant future for this school is already assured.

PUBLIC SCHOOLS.

Des Moines stands in the front rank of Iowa cities in her interest in education, and in the number and excellence of her schools.

The thirty-five public school buildings of Des Moines, all well constructed, with improved systems of ventilating and heating, well lighted and splendidly equipped, attest in part the strength of the educational spirit of the people of this city. The public schools of this city have three hundred and fifty teachers, who have charge of nearly fifteen thousand children. The several colleges of the city have had an enrollment of about twenty-five hundred students during the past year.

Des Moines was the second city west of the Mississippi (St. Louis being the first) to inaugurate the kindergarten, of which there are now eighteen, as a department of the public schools, in this respect being five years in advance of Boston and Philadelphia.

The two high schools of Des Moines occupy magnificent buildings, one erected at an expense of \$100,000, and the other costing \$40,000. They are thoroughly equipped with the latest apparatus and the best appliances for teaching the various branches in the curriculum. The West side high school offers five courses of study, namely, a business course of two years, including bookkeeping, typewriting and stenography, an English course, a scientific course, a Latin and a classical course—each four years. An interesting and valuable feature in this school is the industrial training. Three rooms of the fine building have been fitted up with the best appliances—one for drawing, one for shop work, and one for cooking, and the work of directing and teaching has been put in charge of two of the most competent instructors in these branches in the country. The students, numbering about three hundred, are permitted to take up these lines of work in connection with the ordinary exercises of a high school.

In addition to the public schools of the city there are excellent parochial schools

maintained by the Roman Catholics, Lutherans and Hebrews. There are also private schools, and a young ladies' seminary (Catholic) of a high order.

BUSINESS COLLEGES.

Des Moines has four excellent schools, which impart a thorough business education to young men and women, fitting them for active commercial life. Their graduates make our best business men and women, and are eagerly sought for by our most enterprising establishments, and given positions of responsibility and trust. These institutions have a reputation among the foremost schools in the country devoted to the business training of the young, and they are attended by large numbers of students from all parts of this and other states. They are the Iowa Business College, the Capital City Commercial College, the Des Moines Business and the People's Commercial College.

MUSIC SCHOOLS.

The advantages offered by the Des Moines Musical College for the acquirement of a thorough musical education are unsurpassed in the west, and whether the student is desirous of obtaining a theoretical or practical knowledge of music, instrumental or vocal, the instructors in this school are fully competent to impart the knowledge desired.

The name of Prof. M. L. Bartlett is synonymous with the energy and character in Iowa. He is beyond question the greatest musical director west of Chicago. We have among our teachers of music in Des Moines a number who are not surpassed as instructors in any part of the country, and who pursue a system of training admirably adapted to the object sought.

LAW SCHOOLS.

The Iowa College of Law is located in the city of Des Moines, and the city can

not be excelled as a location for legal training, for as the capital of the state it affords the student rare advantages of jurists, courts, legislatures and libraries, the students having free access to the State Library (one of the largest in the whole country) containing thousands of volumes of law books, including the reports of all the states and most of the foreign countries complete. The aim of the faculty is to give thorough instruction and the final examinations are full and complete, requiring faithful work of the student in order to graduate.

MEDICAL COLLEGES.

Des Moines has four medical schools, the Iowa College of Physicians and Surgeons, the Iowa Medical College, the King Electric Medical College and the Iowa Institute of Homeopathy which offer excellent advantages for the acquirement of a thorough medical and surgical education.

IOWA VETERINARY COLLEGE.

This institution, as its name implies, is devoted exclusively to the teaching of veterinary medicine and surgery. The facilities of the college for instructing students in the practice of veterinary science, together with hygiene, breeding and general management of the domestic animal are ample. There never was a time in the history of this country when the services of educated veterinarians were so much sought after as at present, hence the importance of educating men for the profession and of furnishing reliable works for study is very evident. It is the earnest desire and intention of the faculty of this college to fit their students that they may take high standing with other graduates of this noble profession.

LIBRARIES.

The value of well equipped public libraries cannot be too strongly emphasized. They exert a powerful influence in elevating the standard of intelligence in

every community. The State Library which occupies elegant quarters in the Capitol building ranks among the first of the libraries in the Union. The departments in law, science, history, biography and fiction are well filled. The library contains about 50,000 volumes which are used for public reference. A valuable addition to the State library is what is known as the "Aldrich Collection," being a collection of photographs, autographs and mementoes of notable men and women of the past and present, in this country and the old world. The collection is very rich and full, and occupies a large number of beautiful cases made especially for its preservation. It is the gift of Hon. Charles Aldrich of Webster City, to the State of Iowa, and the generous donor is constantly adding to, and enriching the collection, which now numbers many thousand specimens. The city library is of all public institutions the best patronized and fraught with the greatest interest to the people of any institution in Des Moines. It is located on Fourth street in the new Y. M. C. A. building and contains over 5,000 volumes, together with leading daily newspapers, city publications and a large supply of excellent magazine literature, all of which are free to the public. It was organized in December, 1866, by a number of enterprising citizens, and in 1882 was turned over to the management of the City Council. The board of trustees is composed of three members of the council, and two chosen from the library association. It is a great boon to every reading citizen of Des Moines to have access to a good library, and it is an institution worthy of the best attention and support that can be bestowed upon it. It is well patronized, the membership estimated by cards issued, being a little more than seven thousand, and there is a constant demand for new books.

The State Arsenal is used as a repository for military records.

The Y. M. C. A. reading room on Fourth street is well supplied with books, papers and magazines.

HOTELS.

Good hotel accommodations is one of the best advertisements for any city, and Des Moines is unquestionably the hotel city in Iowa. It is not unusual for commercial travelers to come into the city Saturday from a radius of one hundred miles, to spend Sunday, because of the hotel accommodations. There are over twenty good hotels and scores of smaller ones and boarding houses. Our Savery House with its elegant appointments throughout, would be a source of pride to any city, while the Kirkwood, Aborn, Morgan and Goldstone retain their reputation and popularity. The principal houses are elegantly furnished, the *cuisine* is unexceptionable and they are noted for their excellence in everything which pertains to first class accommodations. Besides those mentioned, prominent houses are the Ardmore, Logan, Windsor, International and two excellent European hotels, Munger's and the Sabin House. Des Moines comfortably entertains 30,000 to 40,000 visitors per day during the State Fair, which is beyond the capacity of any other city in Iowa to do.

NEWSPAPERS.

The press is a reflection of the ideas, sentiments and aspirations of the age. In all the rapid advances made by Des Moines, nothing impresses the mind more than the wonderful progress in journalism, and the eminence attained by our newspapers, and the power which they have exerted in the growth of our city. The general character, appearance and professional rank of the newspapers of a city constitute a criterion, by which to estimate its people, their intelligence and

their prosperity. No other city in Iowa has as many newspapers and publications as Des Moines; and certainly in proportion and extent of circulation, no other city of the same population in the country can make a better exhibit. In all that relates to journalistic enterprise Des Moines papers have reached a high standard. The following are the principal journals: State Register, daily and weekly; Des Moines Leader, daily and weekly; Des Moines News, daily and weekly; Iowa Capital, daily and weekly; Iowa Homestead weekly; Des Moines Trade Journal, weekly; Polk County Advocate, weekly; Kell's Iowa Turf, weekly; Iowa Staats Anzeiger, weekly; Sunday Post, weekly; Haus Schatz, weekly; Iowa Staats Zeitung, weekly; Svithiod, weekly; Mail and Times, weekly; Saturday Review, weekly; Plain Talk, weekly; Grand Army Advocate, weekly; Iowa Tribune, weekly; Inland Christian Advocate, weekly; Iowa W. C. T. U. Messenger, weekly; Des Moines Graphic, weekly; Peoples Weekly; Highway and Banner, weekly; Iowa Sabbath School Teacher, weekly; The Epworthian, weekly; Live Stock and Western Farm Journal, semi-monthly; Rural Northwest, semi-monthly; Polk County Farmer, semi-monthly; Eclectic Medical and Surgical Journal, monthly; Northwestern Library, monthly; Iowa Endeavorer, monthly; Iowa Legion of Honor Herald, monthly; Northwestern Legion of Honor Helper, monthly, and the Western Newspaper Union, auxiliary publishers of Iowa and other weekly papers. There are also several college papers published by the students, reflecting credit upon their respective institutions.

SOCIETIES AND ORDERS.

The fraternal and benevolent societies usually found in large cities are well represented in Des Moines, there being numerous organizations of Masons, Odd Fellows; Knights of Pythias, Legion of

Honor, United Workman, Modern Woodmen, Knights of Labor, American Mechanics, Red Men, Druids, Grand Army of the Republic, and many others of minor importance, while in the temperance organizations there are the State Alliance, Good Templars and Woman's Christian Temperance Unions. The visitor from abroad, it matters not from what portion of the world he comes, may find among the benevolent and social organizations in the city, some one to extend the hand of welcome, and express a fraternal interest in the stranger. These various societies and orders are numerous, and most of them are strong, in numbers and influence. Many of them have departments of life insurance, thus constituting them mutual benefit associations.

HEALTHFULNESS

With regard to healthfulness, the location of Des Moines is unsurpassed, a broad plateau, skirted with undulating bluffs, rising about one hundred and seventy feet, the latter covered with forest trees, with two large rivers, having eight feet fall, and a velocity of about three miles an hour, afford a natural surface drainage adequate to insure against malarial diseases. There is a marked absence of malarial diseases, and of such as are traceable to improper sanitary regulation. Epidemics are not known. Sanitary appliances, supplemental to the natural conditions, are being added adequate to the increase and solidarity of population.

The average annual death rate, per one thousand of the living population, is less than four-fifths of one per cent of which more than two thirds is from preventible diseases—diseases that are myotic.

The climate is what may be called medium, healthful and invigorating. The city is elevated eight hundred and forty

feet above the sea level.

One of the greatest blessings a community can have is good water. That Des Moines possesses water of sup rlativ e quality is shown by chemical analysis of sample taken from the water works.

In regard to healthfulness, which is a very important feature in the growth of a city, Des Moines presents unusual attractions to those in search of a location for a home.

PARKS.

Des Moines Zoological Garden is the principal resort of this character and is a most delightful place in which to spend the day or evening. Winding carriage ways, under over-arching branches; meandering walks among the trees; over rustic bridges and creeping along the bluffs; artificial lakes, grottos, swings, summer houses, and rustic seats, have already been provided, and the improvements made have rendered it adapted to the comfort and convenience of visitors. The grounds contain sixty acres including a charming lake, on which there are a steamer, a beautiful gondola, and a large number of row boats. There are many delightful spots within the inclosure, for picnics and pleasure parties, and the place abounds in beautiful and picturesque scenery. The management have already secured a large and interesting collection of animals, and intend to add steadily to the number. The company are now making some radical changes which will further entertain visitors and add to the amusements offered. A fine half-mile track for bicycles has just been completed and tennis courts will soon be added. They are now putting in an electric light plant, and the grounds will soon be brilliantly illuminated with sixteen arc lights.

Prospect Park is also a delightful and much frequented pleasure resort. No other place in this region affords scenery more romantic, varied and picturesque.

Oaks, elms and other native trees afford protection from the heated rays of the sun, and render the place delightfully cool in summer. From the summit of the heights near the entrance to the park may be obtained a magnificent view of the river and valley, together with a vast extent of prairie covered with the verdure of meadows and green fields. Art has added much to the natural beauty of Prospect Park. This park has a fine pavilion for concerts &c., is free to the public, and numerous picnic parties and pleasure seekers avail themselves of its attractions. Both these parks lie on the banks of the Des Moines river in the north part of the city, and are accessible by steamer or row boat of which there are more than a hundred now in use. Two lines of electric cars also run to the entrances. The Iowa State Band gives frequent concerts here, and their audiences are numbered by thousands.

IOWA STATE FAIR.

The State Agricultural Society a few years ago, purchased, with money donated by the citizens of Des Moines, and an equal amount appropriated by the State, two hundred and sixty-six acres of land, now in the eastern part of the city for a permanent location for the Iowa State Fair. Since that time fully \$200,000 have been expended upon the grounds in the erection of permanent buildings, parks, race tracks, etc., and to-day the grounds are as fine as any in the whole country for the purposes for which they were designed. The location is a very sightly one, overlooking the entire city proper as well as the large manufacturing districts, the two rivers, etc. This great Fair, which is the largest state fair in the United States, is held annually, and is attended by thirty to sixty thousand people daily, some days showing even a greater number. Every year the shrewd manufacturers of this

and other states take advantage of these immense throngs by advertising and exhibiting their various products, knowing that they will reap rich returns for their outlay of time and money. Besides this, those business houses and factories located in the same city in which this great annual fair is held have the people brought to their very doors and can thus show them the method of production, capacity of works and many other details that are always interesting to the dealer. Our producers generally take advantage of these immense gatherings, and are frank to say that they have been very important factors in extending their business in every direction. The Rock Island railroad has a double track from the business part of the city to the fair grounds and runs ten minute trains during the fair. The last fair was the grandest exhibition of products of the soil and the dairy, of agricultural implements and manufactured products, and of fine stock ever held in the west.

CEMETERIES.

Woodland Cemetery, our beautiful "city of the dead," is situated in the northwestern portion of the city. The land is gently undulating, uplands and dells and shady groves abound, and a small stream quietly pursues its way through the grounds. It contains many elegant designs in statuary and monumental sculpture, and with the care bestowed upon it, and the improvements constantly being made, it is fast assuming the appearance of a landscape garden, as well as that of "God's Acre." A handsome residence for the sexton is located at the entrance, and also a pretty chapel, where services for the dead are frequently held. Immediately north of Woodland cemetery is the Catholic, and the Jewish Cemetery adjoins it on the northwest.

BENEVOLENT INSTITUTIONS.

Cottage Hospital, in the north part of the city, is a beneficent and praiseworthy institution. It was opened for the reception of patients in July, 1878, and the demands upon it increased so rapidly that it was compelled to enlarge its facilities for usefulness and is now established in a pleasant and commodious building. It is well managed and has accomplished great good. No patients are received having contagious diseases but any and all who are sick and have no where to go, are cordially welcomed and kindly cared for.

The Tracy Home for Invalids is a large and admirably arranged institution, where patients may receive the best of private surgical treatment and nursing. It is located on an eminence in the north part of the city, where the air is delightfully pure, and which overlooks the city and the river. The institution is provided with superior facilities for the care and treatment of patients.

The Christian Home for Self Supporting Women is one of the most beneficent institutions of our city, and though but recently established, is quietly accomplishing a good work. Its object is to provide a Christian home for working girls and women in the city, and for strangers coming from other places in search of employment. Here they receive aid, encouragement and protection from the evil influences incident to large cities. If they can bring reliable recommendations they are assisted to procure situations at good wages. They receive board at a nominal cost, and have the comforts of a home.

THE BENEDICT HOME is an institution having for its object the reclamation of fallen women, and is under the auspices of the state organization of the Women's Christian Temperance Union. It receives its support partly from contributions from the local Unions throughout Iowa,

and partly from the state treasury. It has been in existence about nine years and has been instrumental in accomplishing much good.

THE DES MOINES HOME FOR FRIENDLESS CHILDREN is a most worthy institution. Its object is to care for friendless and destitute children under fourteen years of age providing them with board, clothing and Christian training until they can be placed in good permanent homes. It is dependent entirely upon public charity, and has been established five years. During that time it has taken a large number of children from the lower walks of life and placed them in good Christian homes, thereby insuring to them such training as shall make them good citizens and useful members of society. The control of this institution is vested in a Board of Managers, consisting of thirteen ladies who are members of the various churches. Through the kindness and generosity of the public toward the Children's Home, there is now in course of erection, in a pleasant location in the western part of the city, a commodious and well arranged building capable of accommodating several hundred children, which when ready for occupancy, will have cost about \$10,000.

PUBLIC CONVENIENCES.

The industries of Des Moines which have shown such a remarkable improvement during the past few years, and which draw their supplies from all portions of the United States, demand an extensive system of telegraphic communications, which is furnished by the Western Union Company, with three offices in the city, under the management of Mr. T. A. Yearnshaw, and the Postal Cable Telegraph Company, which also has three offices here, and is under the management of C. F. Fox. The American District and Telegraph Fire Alarm Company is composed of the best Des Moines

business men, and is rapidly growing in popularity. Nearly all the fire alarms are being sent in over this system. This messenger department is something long needed in the city and is highly appreciated. This system puts every home in direct communication with the public department for the small sum of \$6 per year. The lines extend to all parts of the city. An excellent telephone system is another very valuable feature of Des Moines life, with nearly one thousand subscribers. Des Moines has telephonic communication with over one hundred cities and towns in the surrounding country.

Des Moines has a fire department equalled in efficiency by but few cities in the country, and surpassed by none of the same population. The present efficiency is due to many years service and careful training. The fact that the proportional loss by fire in Des Moines is so very small, speaks with emphasis of the faithfulness of the firemen, and is a cause of just pride. There are seven engine houses located in various portions of the city, and the average time occupied from the sounding of the first alarm until the men are in their places and the horses on a run through the streets is from fifteen to twenty seconds. The city has spared no pains or expense in perfecting its fire department, and it is an honor and credit to Des Moines.

The electric light is in general use for business houses and the principal business streets in Des Moines, and proves very very satisfactory. There are three electric light companies, and they furnish both the arc and incandescent light. They also furnish many of our business houses with power at rates much less than steam power.

Our gas works are first class, and amply supply the demand with gas of excellent quality. The lights upon the streets are numerous, and are kept in good condition.

The United States Signal Service established a station in Des Moines August 1, 1878. Five observations are taken daily and reported to Washington by telegraph, from which, together with the reports received from other stations, of which there are one hundred and thirty-five, predictions of the weather are made for the next twenty-four hours. The Des Moines station is one of seventeen printing signal stations in the United States, and has been of special benefit to residents of this locality. This station is under the management of a thoroughly competent officer, Sergeant G. M. Chapel, who is fully informed on all matters pertaining to the weather. The cold wave signal was established in 1883, and has proved of great benefit to dealers in perishable goods and to railroads.

The city has 32 miles of cedar block and brick paving, 69 miles of stone iron and concrete curbing; 32 miles of sewers, 52 miles of gas mains, 74 miles of water mains; 500 arc and from 8,000 to 10,000 incandescent electric lights; nine wagon and eleven railway bridges, each 600 feet long.

STREET RAILWAYS.

The splendid system of electric street railway in Des Moines, is a matter in which her citizens take great pride. There are eleven distinct lines all owned and operated by one company who have expended many hundreds of thousands of dollars in bringing it to perfection, until it has attained to such a degree as is scarcely equalled in the United States. It has over forty miles of trackage and every car in the entire city is propelled by electricity. By a system of transfers passengers are transported from one end of the city to the other, for a single fare of five cents. A prominent business man of New York City who recently visited Des Moines said, "I had no idea of the electric cars. We haven't them in New York. I am astonished at the western

enterprise. You can be justly proud of your system. I do not know of any of equal size or that will compare with it, in any way. It seems to be as nearly perfect as you can get it." The employees, as a rule, are courteous and obliging and the cars are well patronized. Everybody rides, showing conclusively that the people appreciate this safe and expeditious means of transit. This system has aided greatly in the development of the suburban portions of the city, inasmuch as the rapid transit enables the mechanic and artisan, as well as the capitalist and business man, to live at a distance from the noise and dust of the business center, and yet reach their places of business in good time, and this accounts for the rapid development of many new additions which have been laid out during the past few years. The company have recently built a new power house on the east side of the river above Des Moines street. It is a two story brick covering about half an acre, and is divided into three departments, the repair and manufacturing shops, the power house and the boiler room. This is the heart of the whole system where, the power which drives the cars along the streets with such rapidity and ease, is produced and where the constantly necessary repairs are made. An emergency can scarcely arise which cannot be met in their shops. No idea of the magnitude of power produced here can be had without a visit to the power house.

A CITY OF HOMES.

The homes of a city is a good criterion by which to estimate a city, and by this test we think Des Moines the best city in the west, for it has scores of charming and beautiful homes. As the capital of Iowa, with its many educational advantages and influences, such as universities, splendid public and private schools, law, medical and musical schools, art stores and art studios this city possesses unusu-

al advantages and it is a noteworthy fact that nothing has contributed more to the growth of Des Moines than the location here of wealthy people from other portions of the state, who have made their fortunes and are retiring from business, and who are constantly coming to Des Moines in order to secure for their families the social and educational advantages of the capital city.

Des Moines has many lovely natural residence sites. Grand avenue is, perhaps, the most pretentious residence street, and on this spacious thoroughfare are built some of the most charming homes west of Chicago. Few cities are so beautifully adorned with trees. Des Moines is a city of homes, of churches, of schools and of colleges, and in this respect it embodies some of the most striking characteristics of this noble state. Here one finds the beautiful homes of the wealthy numerous, surrounded by all the evidences of comfort and luxury that wealth can command, and good taste suggest; and the more modest homes of the mechanic or business man neat and attractive with its bit of lawn and its blooming flowers. There is probably not another city in the Union of the same population that contains so few tenement houses as this, and it is a fact that nearly all the private residences built are for the occupancy of their owners and are convenient and tasteful. The churches and substantial school buildings, modern in design and well equipped are erected in every portion of the city while several colleges and two normal schools crown our splendid facilities for the acquirements of a finished education.

The homes of this city and their surrounding and furnishings, give evidence of an appreciation of the refining influences of life. The sessions of the legislature, and of the Federal and State Courts attract leading professional and prominent men here from all sections.

This is also the convention city of Iowa and not only of the state, but usually one or more each year of the national organizations hold their annual meeting in Des Moines.

For many years music and art have had many patrons and admirers, and the taste of the general public has been elevated in this regard until it has made an appreciation of these refining influences characteristic of our city. The social element is very prominent, and everything considered, no city in the west presents a greater attractiveness to those in search of a new location for a home. Des Moines is eminently a moral city. It is a place in which children can enjoy the best opportunities for culture and grow up in a healthful, moral atmosphere, largely due to the influence of our many churches and schools. It was largely owing to the enlightened public sentiment of Iowa's capital that this city of 60,000 inhabitants is without a single saloon, which speaks volumes for the morality and law abiding spirit of her people. The statistics, in comparison with cities of the same population, or with the leading cities of our own state, show a much smaller number of arrests for vagrancy and drunkenness, which speaks well for the morality as well as the industry of our people. One very significant fact which adds to the credit of Des Moines is that we have more families in circumstances of comfort than any city of the same population, as statistics show that we have less pauperism.

INDUCEMENTS TO CAPITALISTS, BUSINESS MEN AND HOME SEEKERS,

There are peculiar inducements to invest in business or residence property in Des Moines. It will increase in value rapidly and money expended in lots will return ere long with good profit. There are numberless inviting sites for resi-

dences, surrounded by native groves, and overlooking the adjacent country and business portion of the city, and residence lots though in good demand, can be obtained at reasonable rates, as well as for business or manufacturing purposes.

Business property is steadily advancing on its real merits, and not owing to any fictitious value, and the opportunities for investment are good. Many fine business blocks and factories have been erected during the past few years, and many more are contemplated in the near future, which will repay the builders well as an investment, while parties erecting suitable residences will do equally well, as the property would be in demand at a good profit.

From her central and commanding position, her intellectual and commercial conditions, Des Moines is destined to be the best and most attractive city in the West. This city has been richly endowed by nature with varied resources, which are the basis of prosperity and wealth. She has done her part in supplying the great desideratum, fuel and water. Our railroad facilities are ample and are being increased every year; our advantages in every particular are sufficient. Millions of dollars are lost annually by the people of Iowa by not having within her own borders the necessary establishments for manufacturing the thousand of articles in daily use, and the preparations of the products of her own rich soil. There is nothing which is calculated to develop a city faster, nothing that gives more prominence and commercial value, or enhances the condition of her business men more rapidly, than the operating of large manufacturing establishments.

While we have two hundred and thirty factories here, there are many other industries that would prove remunerative which should be established here, and

we believe there is no better locality in the West for manufacture of nearly every variety than our city affords. Des Moines is undoubtedly the best point in the West to locate first-class industries, and those manufacturers who will investigate the matter now, and establish themselves here soon be the ones to profit most by the opportunities here offered. We take pleasure in noting the growth of our various manufactories, the astonishing strides which the wholesale and jobbing interests have taken to supply the increasing demand for their goods, and the new gateways opened for the entrance of other industries, which are bound to follow. Nowhere in the west is there a better point for the receipt of raw material, the production and distribution of manufactured goods, nowhere can a multitude of workmen more economically support themselves and families, or more easily procure a home. We want more factories and wholesale business houses, and are anxious to have the excellent opportunities utilized when the beneficial results are so apparent. The manufacturer who locates in this city is not dependent upon the present trade, favorable as it may be, but is establishing an industry which must expand year by year as the country tributary grows in wealth and population.

Des Moines is an attractive city, and by reason of being at once the capital and metropolis of the State, naturally draws from other parts business men whose capabilities and capital have outgrown previous opportunities. It is clearly obvious that the future growth of Des Moines is largely to be measured by the acquisition of more manufacturing enterprises. Owners of Des Moines realty can secure permanent stability to advancing values in no other manner so effectively as by lending active and substantial aid in that direction.

The State of Iowa alone affords an almost unlimited field for the sale of many articles of every-day use. Des Moines is the natural distributing point, not only for Iowa, but for the Northwest, and with its unlimited supply of cheap fuel, its railway facilities, its splendid clay and other resources, it has reason to anticipate a rapid development in the manufacturing line.

Des Moines contains two hundred and thirty factories, mills and works engaged in the manufacture of various articles, fifty of which were established last year, many of them large and important works.

These various and valuable industries receive a liberal patronage and encouragement from the community to whose comfort and happiness they have so largely contributed. They were not established in a few days, but by a process of steady, determined growth have acquired their present influence and importance.

The factories recently established here have added several thousand to the population, and will contribute largely to the support and maintenance of the industrial classes in the future.

There are fewer idle men in Des Moines than in any city in the West of equal population, in consequence of our numerous coal mines, many railroads and various industrial interests, while the improvements constantly being made in the city and suburbs give employment to many. The people of Iowa's Capital are thoroughly awakened to the importance of manufacturing enterprises, and are determined to make their city what favorable location and abundant natural resources indicate it should be—the leading industrial city of the West.

COMMERCIAL EXCHANGE

The Commercial Exchange is an organization, incorporated January 24th, 1888, whose object is the promotion of

the manufacturing, mercantile, and all other business interests of the city. It is composed of the leading merchants and professional men of the city, who have an abiding faith in Des Moines. It invites correspondence from manufacturers and business men contemplating a change in location. Information concerning the city is cheerfully furnished, the aim being to acquaint strangers with facts concerning the advantages, resources and prospects of Des Moines.

Young men or others, possessing moderate capital, and seeking good business openings, are invited to correspond with the Exchange, not only to the end of informing themselves as to special opportunities for new enterprises, but possibly with a view to taking an interest and forming a business connection with establishments already in successful operation. The officers of the Exchange are: Lowry W. Goode, president; G. F. Selleck, secretary; Tac Hussey, treasurer.

PRODUCERS ASSOCIATION

The Des Moines Producers Association is an organization composed of the manufacturers of Des Moines—as indicated in the name—whose object is to develop the home market by purchasing Des Moines and Iowa made goods. It has a membership, at present, of seventy or seventy-five, and is increasing. The members pay a monthly charge—the money to be used for the purpose of furthering the objects of the Association. Any concern, or institution, which produces anything in Des Moines is eligible to membership. No efforts are made to compel any one, whether a member of the Association or not, to purchase home-made goods; but it is the aim of the Association to spread information concerning our factories and their products and to keep our people reminded of them, so that, if they find the home-made goods satisfactory in quality and

price, they may, if they choose, give such home-made goods the preference. Our investigation has lead us to believe that our home factories would have much more patronage, except for the thoughtlessness of our people. Des Moines people are willing to patronize home institutions, but they over-look the matter at the time they are purchasing, and buy what is set before them. The organization is intended to be permanent. It has published a directory of all Des Moines productions, and purposes to put one in the hands of every housekeeper in Des Moines, as well as in every office. It expects also to use various other methods for keeping the matter before the people. Its regular meetings occur on the fourth Thursday of every month, in the evening. It is, at present, meeting at the rooms of the Commercial Exchange. The officers are as follows: J. C. Cummins, president; J. F. Girton, secretary; J. W. Geneser, treasurer.

We hope that the parties who are looking for new homes or business locations, may visit Des Moines before deciding, with the assurance that they will be cordially welcomed and every facility afforded for investigating the superior advantages which our city possesses.

THE SUBURBS.

In 1890 a bill was passed in the State Legislature, extending the limits of Des Moines so that it now embraces ten of what were previously suburban towns. As they are still known by their distinctive names, although really a part of the municipality, it may not be amiss to make mention of them.

SEVASTOPOL lies in the southern part of the city, and the principal industries are coal mining and market gardening. A Congregational church, a graded school and several stores are located here. The electric cars run to this part of the city.

NORTH DES MOINES is eminently a place of homes, the elevated situation and gently undulating surface, diversified with beautiful groves of native trees, combining to produce one of the most delightful residence localities to be found anywhere. Many of the finest residences in Des Moines are located in this suburb. Here are also the fine buildings and grounds of the Des Moines College, a commodious and handsome brick building for the use of Oakland school, and three good churches, of the Methodist, Baptist and Congregational denominations. It contains several business houses, and four lines of electric cars.

HIGHLAND PARK, the seat of Highland Park Normal College, is in the extreme northern portion of the city, and has rapidly built up during the last two years with the better class of citizens, brought here largely through the influence of the college. The beauty of location, the charming view of beautiful and varied scenery, and the healthful surroundings of Highland Park combine to make it one of the most desirable residence portions of the city. Oak Park on the west, and Northmoreland on the south, are both beautiful locations and are built up with the better class of residences. The electric cars run from the postoffice to the college, about a twenty minute ride. The Highland Park Presbyterian church is located here.

CAPITAL PARK lies north of East Des Moines, and is high and well shaded, affording splendid residence sites. Groves of native timber add much to the beauty of the place, whose proximity to the business center of the city is one of the desirable features. It has excellent schools and several business houses, and has an excellent class of residents. The electric cars run to this portion of the city also, and it is within twenty minutes ride of the post office.

UNIVERSITY PLACE is the site of Drake University, with its spacious campus and fine buildings, and is one of the most densely populated of the suburbs. Like Highland Park, it is settled almost entirely by people who have come here to be in proximity to the college. The University Place Christian church was built last year at a cost of \$40,000, and there are also a number of business houses. Two lines of electric cars extend into University Place.

GREENWOOD PARK is one of the most beautiful of Des Moines suburbs, containing many of the finest and most costly residences in this section. It is traversed throughout its entire length by the electric car line, and is very popular as a place of residence. Some of the finest and most elegant homes in Iowa are located here. It is in the western part of the city, and Greenwood avenue, a paved street, and one of the most beautiful drives in the city extends throughout it east and west.

KINGMAN PLACE is a beautiful addition in the western part of Des Moines, midway between Greenwood Park and University Place, and is one of the most attractive of our suburban additions. It has high ground, good water, pure air and delightful shade—all indispensable to healthful and beautiful homes. It is easily reached by the electric cars, which have a depot near the center of this tract. Many elegant houses were built there during the past year, as well as a fine brick building, known as Elmwood graded school, for the accommodation of the children in the western part of the city.

CLIFTON HEIGHTS lies on the hills, immediately south of the business part, overlooking the city, the Capitol, and the two rivers. The hill land is mostly covered with a fine growth of native timber, furnishing most beautiful building spots with shade trees already grown.

There are many points in the tract from which magnificent views of the surrounding country and the city are to be obtained. Good well water may be found in any part of this tract, which is also provided with the city water mains, gas mains and street cars. The school and church accommodations are ample and of the best class. The location is unquestionably healthful. More than all else this beautiful tract of land is in almost in the heart of the city, the distance from the Court House being only about a half a mile, yet notwithstanding all of its advantages, the natural beauty of the land, and its nearness to the business part of the city, it is offered at very low prices.

GRANT PARK is in the eastern part of the city, between the business center and the State Fair Grounds. Within and adjoining its borders are to be found some of the largest factories in the state, including the Des Moines Cotton Mills.

An item of importance to manufacturers is that a majority of the railroads have tracks already laid through the Park and its additions, while the others reach it by means of the tracks of the Des Moines Union Railway Company. The electric railway also has an extension through Grant Park. The water in in this section of the country is clear and pure, and can be obtained cheaply, either by means of artesian wells or by pumping. Coal can be had in any quantities, near at hand. There are two schools, with excellent buildings, and there is also a church, and a number of business houses.

CHESTERFIELD is situated in the southwestern part of the city, and is principally devoted to manufacturing interests. Here are located the starch works, the immense packing houses, pressed brick works, malt factory, and several others. Most of the employees in these establishments reside here. There

are a number of business houses and a good school.

HYDE PARK is in the extreme north-eastern part of the city, adjoining the State Fair Grounds on the north. The Hyde Park Mineral Spring water is of superior health giving quality. The analytical chemist who has made analyses of water from many of the different springs of the country, including Colfax, says: "I have made a careful analysis of the mineral water of the artesian well in Hyde Park, and the water is very pure and strong as a mineral water. The water issues in a bold stream from a spout about three feet from the ground, from a depth of 725 feet, and is remarkably clear and sparkling. I consider this the best mineral water I have analyzed in this country." The following is the analysis:

	Per U. S. Gallon.	Per 100.000
Total Solids.....	213.50	366.0715
Soluble Solids.....	134.71	213.50
Insoluble Solids.....	78.79	Total
Carbonate of Calcium	75.14	78.79 In-
Silica of Alumina.....	3.65	soluble
Sulphate of Sodium...	85.14	Solids
Sulphate of Magnesium	7.62	
Chloride of Sodium ...	11.43	134.71
Sulphate of Calcium...	25.41	Soluble
Carbonate of Potassium	5.03	
Carbonate of Magnesium	.03	

The United States gallon of distilled water at 60 degrees Fahrenheit, weighs 58318 grains. The imperial gallon 70000 grains.

The Des Moines Sanitarium Company has erected a fine, large building, this year, for sanitarium purposes. The building is in close proximity to the Hyde Park Mineral Spring, and is located on the brow of the hill overlooking the State Fair Grounds on the south, and on the west a fine view of a large part of the city is obtained. The company have already expended about \$50,000 on building, and in beautifying the grounds, constructing an artificial lake, etc. Elegant bath rooms have

been provided, and it is the intention of the company to make this a first-class sanitarium in every respect.

With the exception of a few, especially devoted to manufacturing, all these suburbs are among the most delightful residence parts of the city. Owing to presence of the two rivers in Des Moines, there is an abundance of native trees, and these additions are delightfully shaded. They are well provided with churches and schools, and the society is cultured and refined.

DES MOINES CITY OFFICERS.

John H. Campbell, Mayor; John J. Pedersen, Treasurer; Sam. W. Baker, Auditor; W. D. Christy, Assistant Auditor; Hugh Brennan, Solicitor; W. H. Bailly, Assistant Solicitor; M. R. Laird, Engineer; B. Schreiner, Assistant Engineer; R. B. Dennis, Clerk; Wm. Lewis, Assistant Clerk; Frank Eggleston, Police Judge; F. F. Blyler, Police Clerk; M. Melander, Chief Fire Department; J. W. Monarch, Assistant Chief Fire Department; Alex. Graham, Superintendent Markets; Sol. Stutsman, Marshal; Fred Johnson, Deputy Marshal; M. C. Bennett, License Collector.

BOARD OF PUBLIC WORKS—R. S. Finkbine, R. L. Chase.

PARK COMMISSIONERS—M. T. Russell, Chairman; John F. Rollins, George Lendrum.

STREET COMMISSIONER—A. J. Dunkle.

SIDE WALK COMMISSIONER—H. C. Windsor.

MEMBERS OF COUNCIL—President *pro tem*, H. R. Reynolds; At Large, I. E. Tone, Des Moines Township; At Large, H. R. Reynolds, Lee Township; First Ward, C. C. Lane; Second Ward, Geo. W. Sheldon; Third Ward, John Sherman; Fourth Ward, H. M. Rollins; Fifth Ward, J. P. Smith; Sixth Ward, F. D. Hussey; Seventh Ward, L. W. Barlow.

POLK COUNTY.

Polk was a part of the county of Keokuk, previous to 1846, but in January of that year it was established as a separate county, and included nearly all of Poweshiek and Jasper counties, while several of the townships now belonging to Polk were not then included in it, and it was not until 1853 that the present boundaries of the county were established. Polk county was organized March 1, 1846; the seat of justice was located at Des Moines, and the first election was held April 6, 1846. It contains an area of 352,500 acres, and had at that time a population of only about three hundred. The surface of the country is gently undulating, and is beautifully diversified with timbered streams and open prairies. The alternation of forest and prairie, hill and vale, presents beautiful scenery in various portions of the county. The principal varieties of timber are oak, walnut, elm, maple, hickory, linn and wild cherry. Detached groves are located here and there throughout the county, which relieve and beautify the prairie. The soil is a rich, black loam, unsurpassed in fertility in any part of the country, producing abundant harvests to reward the labor of the farmer. The atmosphere is dry and invigorating, and the climate is salubrious, and well adapted to the growth of fruits, both large and small, which are produced in abundance. The mineral resources are rich. Polk county is situated near the center of the great coal fields of Iowa, and vast quantities of the best quality of bituminous coal are annually taken from the mines within its limits. Of these mines there are between twenty-five and thirty now in operation, giving employment to about two thousand men. The veins chiefly worked are from three to seven feet in thickness. This industry has attracted large amounts of capital, and

with the ever-increasing demand, is yielding remunerative returns on the investment, giving a largely increased traffic to our railroads. Both limestone and sandstone, as well as mineral paints are found. Potter's clay is found in abundance, also fire clay, and excellent clay suitable for the manufacture of the finer grades of brick, sewer-pipe and terra cotta.

Through its midst flows the Des Moines River, with all its tributary waters, collected from Southern Minnesota, and from twenty-four counties of Central Iowa. Of these tributaries Beaver Creek, flowing through parts of four counties, Raccoon River, flowing through parts of eight counties, and North River, flowing through parts of five counties, all pour their waters into the Des Moines, in Polk county, from the west. Four Mile Creek, having a branch on the east, rises in the northern part of the county, flows southward with a steady current, between well timbered banks, into the Des Moines, on its east side, at the southern border of the county. The *Chicaqua* (or Skunk) flows across the northeastern quarter of the county. Indian Creek crosses the extreme northeastern part of the county. Besides these, the eastern portion of the county is watered with other smaller streams, among which may be named Camp Creek, Mud Creek and Spring Creek. Through the northwestern part of the county Big Creek flows southwardly into the Des Moines. On its west side the Des Moines receives Beaver Creek. Passing southwardly we have Mott's Branch, Walnut Creek and Jordan's Run, all lively water courses. Next, through the southwestern portion of the county, flows the main Raccoon River, a large, clear and beautiful stream with gravel and rock bottom, and swift current. It joins the Des Moines within the city limits, and adds liberally to the volume of waters thence to the

Mississippi. Farther east, on the extreme southern border of the county, we find the North River, which comes through Warren county, and empties into the Des Moines. Besides these water courses, which we have particularly mentioned, and the larger of which contain fine fish of various kinds, there are countless little tributaries flowing through the prairies, from springs, in all parts of the county. The banks of these streams are well supplied with timber, and an abundance of coal is found in their vicinity.

Tracts of unimproved land can yet be purchased upon reasonable terms, and the county is rapidly becoming populated by an enterprising class of farmers. The seat of government is located at Des Moines, and there are also several thriving towns and villages. The population of the county as given by the United States census in June, 1890, was 65,362, but the rapid development of its agricultural and mineral resources, together with increased facilities in transportation, manufacturing and general business in its cities and towns has led to a large increase in its population, which is now estimated at upwards of 75,500.

The public schools of the county are in the advance in all that pertains to organization, discipline and efficient educational work. The practical knowledge received here is important and forms one of the chief factors in our material prosperity. It is claimed, and justly, too, that the children of these schools have all the advantages which the public school system affords. Polk county is well provided with comfortable, commodious school houses, sufficiently numerous and convenient, and the teachers of the county are among the most thorough educators in the State. Much of the success of our county schools is due to the fact that we have a county superintendent who is

an educator of wide experience and advanced views, and under his direction the schools have become more systematized and efficient. The number of school houses in the county is two hundred and twenty-five, and the number of teachers is about four hundred and seventy-five.

The affairs of the county, financially and otherwise, are in good condition, and the officers are doing efficient service, and in all departments we have evidence that capable, trust-worthy men have been called to administer to the offices of the county.

The county court house was erected in 1858, and at that time it was the largest and most magnificent structure of the kind in Iowa. It has recently been enlarged, but is still too small to accommodate the business of this most populous county in the State. The poor of the county are well cared for, and provided with the comforts of a home, and with medical attendance at the Polk County Infirmary and Farm, located about six miles north of Des Moines. This farm contains two hundred and eighty acres of land, and is under excellent cultivation. The inmates who are physically able to work, do so, either on the farm or about the buildings connected with it. A fine three story brick house was erected for the accommodation of the insane of the county, where they receive careful attention and the best of management. From the last report made to the county Auditor, we learn that the condition of each department is excellent, and the supervision very satisfactory.

The roads and bridges of the county are under the direction of the Board of Supervisors, who contemplate building a number of new bridges this year. The county treasury contains surplus funds sufficient for this purpose, and also for the improvement of our roads which are in as good a condition as any county in the state.

TOWNS OF POLK COUNTY.

We desire to speak briefly here of the principal towns in the county, many of which in the course of time, by reason of their nearness to Des Moines, and the fact that so many trains arrive and depart daily, will be considered suburban to Des Moines, and are all pleasant and healthy places in which to reside.

MITCHELLVILLE.

The town of Mitchellville is located in Beaver township, about fifteen miles east of Des Moines on the C. R. I. & P. R. R., and also on the K. & D. M. branch. It was laid out June 2, 1867, by Thomas Mitchell, and has at present a population of about one thousand. It is a bright, healthy village, with some of the finest country in Iowa around it. Coal is found here in abundance. Competition is lively in nearly all branches of trade. The State Industrial School for Girls is located here. Mitchellville supports a weekly paper called the Mitchellville Index. The town has good schools and churches, and the society is excellent, making it a pleasant place for residence.

ALTOONA.

The town of Altoona was laid out in 1868 by H. G. Davis and J. B. Bausman, is partly in Beaver and partly in Delaware townships, and is situated on the C. R. I. & P. R. R., about ten miles east of Des Moines. The K. & D. branch of this road also passes through the town. It has a population of about five hundred, and the principal industries of the place are the mining and shipping of coal, and the manufacture of brick and tile, both of which are extensively prosecuted. Fire clay, as well as coal, is found here in abundance. The branches of retail trade usually found in country towns are well represented in Altoona. The paper printed here is called "The R."

POLK CITY.

Polk City was laid out November 9th 1850, by George Beebe, and is located on the C. & N. W. R. R., about fifteen miles north of Des Moines. It was incorporated in 1875, and has now a population of five hundred. Good building stone, mineral paint, potters' clay and abundance of coal and timber are found in this locality. Polk City has three churches, the Congregational, Methodist and Church of Christ. It has also an excellent graded school and a good hotel, while various business interests are found here, including a flouring mill and a tile factory. The secret and benevolent societies represented by Masons, Odd Fellows, United Workmen and the Grand Army of the Republic.

COMMERCE.

The town of Commerce was laid out April 22, 1871, by A. J. and J. A. Jack, long known as residents of Des Moines, is situated on the C. R. I. & P. R. R., fifteen miles west of the city, and contains about two hundred inhabitants. It is located on a hillside overlooking the Raccoon river, and the principal industry is the mining of coal. The town has a good school and church and several business interests. There is also a grain elevator located here and several of the business men are largely interested in stock dealing.

SHELDahl.

This town is located in the extreme northwestern portion of Lincoln township on the line of the C. & N. W. R. R., and is partly in Polk and partly in Story county. It has a population of nearly five hundred, and is a good point for the shipment of grain. It has a good school, one hotel, and a number of retail business houses. Two firms are interested in the sale of agricultural implements and there are several grain and stock dealers.

Other towns of Polk county are: Runnells, on the W. St. L. & P. R. R., Hastie, on the same railroad, Ashawa, on the D. M. & Ft. D., Clive, on the D. M. N. W., Grimes and Kelsey, on the same road, Crocker and Ankeney, on the C. & N. W., Berwick, Bondurant and Santiago, on the Diagonal. There are in the county also a number of smaller towns. Saylorville, Adelphi, Campbell, Elkhart, Levey, Avon, Oldfield, Rising Sun, Trent, and Valley Junction.

To those desirous of a new home, or location for business, in a pleasant, healthful country village we would recommend any of the towns of our county. Information may be obtained by addressing any of the officers of Polk county.

COUNTY OFFICERS—1891.

AUDITOR.—Amos W. Brandt, Auditor; John S. McQuiston, Deputy; John Whitten, Deputy; Jesse A. Fenner, Deputy; Fred A. Cope, Clerk.

TREASURER.—F. A. Baylies, Treasurer; C. H. Dilworth, Deputy; W. B. Tompkins, Deputy; E. J. Boynton, Deputy; E. D. Smith, Clerk; Emery C. Worthington, Delinquent Tax Collector.

RECORDER.—Geo. C. Sims, Recorder; Wm. L. Witter, Deputy; Frank S. Russell, Clerk; Miss Hattie Crum, Clerk.

SHERIFF.—C. C. Loomis, Sheriff; L. W. Smith, Deputy; M. Morkin, Deputy; V. Holmberg, Deputy; M. A. Webb, Deputy.

CLERK OF DISTRICT COURT.—Wm. Musson, Clerk; W. G. Kline, Deputy; J. G. Jordan, Deputy; Miss M. E. Wilkinson, Assistant; W. A. Garrett, Assistant; Edwin Hult, Assistant; William Clapper, Assistant.

SUPERINTENDENT OF SCHOOLS.—C. F. Saylor.

SURVEYOR.—M. R. Laird, G. B. Wicks, Jr., Deputy.

ATTORNEY.—W. A. Spurrier; Nathan E. Coffin, Assistant.

BOARD OF SUPERVISORS.—T. B. Robin-

son, First District; Wm. Christy, Second District; James T. Brooks, Chairman, Third District, H. G. Iseminger, Fourth District; W. H. Zickafoose, Fifth District.

TRANSCRIPT CLERK.—G. B. Hammer.

JUDGES DISTRICT COURT.—W. F. Conrad, C. P. Holmes, S. F. Balliett.

Mutual Benefit Life Ins. Co.

OF NEWARK, N. J.

AMZI DODD. President. Organized 1844. Assets, Jan. 1, 1891, \$46,997,422.43.

This Company writes the most liberal and just Policies issued.

Cash Values endorsed on the Policy every year after the second.

The amount that may be borrowed on the Policy also endorsed each year.

In case of lapse, the Policy is continued in force as long as its value will pay for; or a paid-up Policy for full value is issued in exchange.

Company noted for its large dividends, liberal treatment of policy-holders, and low expenses of management. Agents will find this a good company to represent.

JOHN S. MAXWELL,

Cor 3d and Walnut Streets.

On corner of Third and Walnut street,
You'll find an outfit for your feet,
Our Kid Hand Turned are most complete
And made to fit all kinds of feet;
And then we give you Calf and Grain,
Or Kip or Cowhide next to same.

MY PLATFORM.

My motto is One Price to all,
And ne'er a nickle do I fall;
Cash on delivery saves the book,
And leaves no bills upon the hook,
And no accountant to be paid,
But leaves his wages to the trade.
We warrant all our shoes to stand,
Or else we sew them up by hand;
We make new shoes of finest grade,
As nice as any in the trade;
And then our man who makes repairs,
Cannot be beaten anywhere.
Our civil treatment in the store,
Brings us custom all the more.

TREATMENT OF SHOES.

If you do not want your shoes to spoil,
Give them a monthly coat of oil; (neatsfoot.)
When the soles are nearly through,
A new half sole will them renew:
All kinds of gloss are sure to spoil,
Unless successor to the oil:
If you do not oil them they're sure to crack,
And then you'll want to bring them back;
No fine outfit is quite complete
Without nice shoes upon your feet.

 ASSOCIATION**

OF
DES MOINES, IOWA.

Duly incorporated under the laws of Iowa.

Authorized Capital, \$50,000,000.

A. J. BAKER, Pres. J. W. MUFFLY, Sec'y.
 S. W. MALTBIE, Manager of Agencies.

The officers are under ample bonds for fidelity in the discharge of their trust.

All payments to the loan fund are turned over on the day of their receipt, to the trustee of that fund, and can be paid out only as loans are made, (when mortgage or other security takes the place of the money and is held by the trustee in like manner), or for shares withdrawn or taxes due.

THE LOAN FUND IS THE ABSOLUTE PROPERTY OF THE SHAREHOLDERS. No part of it can be used for any purpose, on any pretext, to defray expenses of any kind. It can be paid out only on loans duly ordered, or for shares surrendered, or for taxes or other liens necessary to protect a loan.

THE UNION presents to the public its claim on popular confidence, supported by more excellent features than can be found in any form of investment ever offered. It invites investigation and challenges comparison in plan, management, security and profit.

Washington Life Insurance Co.,

OF NEW YORK,

The Policies of the WASHINGTON are
Easily Defined.

They are non-forfeitable. Unrestricted as to residence and travel after two years. Incontestable by their terms. Secured by an invested Reserve. Solidly backed by bonds and mortgages, first liens upon Real Estate. Safer than Railroad securities. Not affected by the stock market. Better paying investment than U. S. Bonds. Less expensive than assessment certificates. More liberal than the law requires. Definite contracts. Immediate settlement of claims. All life policies contain guaranteed cash surrender value FOR THE FULL RESERVE.

M. T. V. BOWMAN, Manager for Iowa.
Office over Iowa National Bank,
Fourth and Walnut.

PAINTING AND TRIMMING

No. 1211 Sixth Avenue.

Geo. L. Holmes, Proprietor.
MANUFACTURER OF
Phaetons, Carriages and Buggies,

CUSHIONS, DUSTERS, SPRING
BACKS, SLEIGH LININGS,
ETC.

If Your Carriage Needs Painting or Varnishing,
Bring it to Me or Notify Me and I will Call
for it Free of Charge.

If Your Buggy top needs a new lining or new
upholstering I can suit you in price
and workmanship.

Why? Because I shall use the best paints, the
best Varnishes, the best Cloth
and Leather.

If you need a new Surrey, Phaeton or Buggy, call
and see me.

I shall have the very latest styles, first-class work
and at a reasonable price.

Remember the Place. It will pay you to call
and see me if you are needing anything in my line
as I am well prepared to do all that I advertise.

A MAN

UNACQUAINTED WITH THE GEOGRAPHY OF THE COUNTRY, WILL OBTAIN MUCH VALUABLE INFORMATION FROM A STUDY OF THIS MAP OF

THE CHICAGO, ROCK ISLAND & PACIFIC RAILWAY,

The Direct Route to and from Chicago, Joliet, Ottawa, Peoria, La Salle, Moline, Rock Island, in ILLINOIS—Davenport, Muscatine, Ottumwa, Oskaloosa, Des Moines, Winterset, Audubon, Harlan and Council Bluffs, in IOWA—Minneapolis and St. Paul, in MINNESOTA—Watertown and Sioux Falls, in DAKOTA—Cameron, St. Joseph and Kansas City, in MISSOURI—Omaha, Lincoln, Fairbury and Nelson, in NEBRASKA—Atchison, Leavenworth, Horton, Topeka, Hutchinson, Wichita, Belleville, Salina, Dodge City, Caldwell, in KANSAS—Kingfisher, El Reno and Minco, in the INDIAN TERRITORY—Denver Colorado Springs and Pueblo, in COLORADO. Traverses new areas of rich farming and grazing lands, affording the best facilities of intercommunication to all towns and cities east and west, northwest and southwest of Chicago, and to Pacific and trans-oceanic Seaports.

MAGNIFICENT VESTIBULE EXPRESS TRAINS,

Leading all competitors in splendor of equipment, between CHICAGO and DES MOINES, COUNCIL BLUFFS and OMAHA, and between CHICAGO and DENVER, COLORADO SPRINGS and PUEBLO, via KANSAS CITY and TOPEKA and via ST. JOSEPH. First-Class Day Coaches, FREE RECLINING CHAIR CARS and Palace Sleepers, with Dining Car Service. Close connections at Denver and Colorado Springs with diverging railway lines, now forming the new and picturesque

STANDARD GAUGE, TRANS-ROCKY MOUNTAIN ROUTE,

Over which superbly equipped trains run daily THROUGH WITHOUT CHANGE to and from Salt Lake City, Ogden and San Francisco. The Direct and Favorite Line to and from Manitou, Pike's Peak and all other sanitary and scenic resorts and cities and mining districts of Colorado.

DAILY FAST EXPRESS TRAINS

From St. Joseph and Kansas City to and from all important towns, cities and sections in Southern Nebraska, Kansas and the Indian Territory. Also via ALBERT LEA ROUTE from Kansas City and Chicago to Watertown, Sioux Falls, MINNEAPOLIS and ST. PAUL, connecting for all points North and Northwest, between the Lakes and the Pacific Coast.

A black and white illustration of a man with wild, spiky hair, wearing a light-colored shirt and suspenders. He is holding a large rectangular sign in front of his chest with both hands. The sign contains the following text:

JOHN L. WRIGHT
HATTER AND FURNISHER
402 WALNUT ST.
DES MOINES, IA.
EXCLUSIVE AGENT KNOX HATS.

He is also holding several small cards in his hands, each listing a different product category:

- SHIRTS
- COLLARS & CUFFS
- NOBBY NECK WEAR
- UNDERWEAR
- LA-HOUSTERY
- STRETCHERS
- GLOVES
- GRETSON
- HATS
- VALISES & TRAV. BAGS
- KNOX HATS
- NIGHT SHIRTS

At his feet are two hats: a hard hat on the left and a top hat on the right, both with the 'Knox' brand name visible.

EQUITABLE LIFE INSURANCE CO
OF IOWA.

F. M. HUBBELL, President,
 CYRUS KIRK, Vice-President,
 J. C. CUMMINS, Secretary,
 I. T. MARTIN, Superintendent of Agencies.

THE EQUITABLE OF IOWA issues usual forms of Life, Endowment, Investment, Semi-Tontine and Return Premium Endowment Policies, at as low rates as any other regular Life Company.

It deposits with the State of Iowa, interest bearing securities equal to the full reserve, or present value of all policies in force—a security to policy holders that is not furnished by any Eastern company.

PROTECT YOUR FAMILY and estate by carrying life insurance, and place it with the EQUITABLE OF IOWA.

CAPITAL CITY NURSERIES.

Most complete assortment in Iowa of New and Standard Varieties of

FRUIT AND ORNAMENTAL TREES AND PLANTS

Best Adapted to This Region.

IN APPLES I have the best of all the old, reliable sorts—
Summer, Autumn and Winter—as well as all the new
sorts I believe worth spending money for, and
some more.

—THE SAME IS TRUE OF—

**Cherries, Plums, Pears, Small Fruits, Grapes, Ornamental
Trees and Shrubs, Evergreens, Roses, &c.**

DON'T FORGET that an enterprising home nurseryman is likely to have all the trees and plants really reliable and fit to be grown in his own region. If a tree is too tender or too fragile for him to grow, you cannot expect to grow fruits on the trees or blossoms on the shrubs when brought from a distance.

Nursery Grounds south Seventh Street, near City Limits. For prices, Catalogues, and all particulars, call on or address

DAVID HARGER & CO.,

Manufacturers of

Harger's Patent

Woven Fabric Roofing,

AND ROOFING PAINT.

Our Roofing Paint is adapted to all kinds of roofs. Repairing of all kinds done, and satisfaction guaranteed.

Address, P. O. Box 292.

NOTICE THE FOLLOWING TESTIMONIALS.

DES MOINES, Iowa, August 11, 1890.

TO WHOM IT MAY CONCERN:—More than two years ago I was about to contract for a new tin roof on my building 409 and 411 Court Avenue, thinking and being advised that the old roof must be replaced with a new one, when I was induced to let Mr. D. Harger undertake to make it do for further service with Harger's Roof Paint and his woven patent fabric, under a written guarantee for two years. The result has proved entirely satisfactory and the old roof is still doing practically as good service as ever. I cannot, therefore, but regard Harger's Roof Paint and his muslin or woven fabric, as applied by him, as very effective and most satisfactory.

R. T. WELLSLAGER.

DES MOINES, Iowa, Aug. 9, 1890.

TO WHOM IT MAY CONCERN:—This is to certify that we have had the roof of our building painted two or three times with Harger's Roof Paint, the first time being five years ago. Mr. Harger has also repaired our roof with cotton pieces or strips, in connection with painting. The paint has been effective and satisfactory and we believe the cloth has done well the work assigned to it. We are well pleased with the work.

DO YOU WANT A HOME? BATES' ADDITION

Contains fifty-five of the choicest unsold lots in the city of Des Moines. This Addition is located on the high table lands of North Des Moines, just east of Fifth Street, between Forest Avenue and State Street, overlooking the river, with an unexcelled view of the picturesque valley that no future building operations can shut off.

The lots are well drained, in a splendid neighborhood, adjacent to some of the best residences of the city, convenient to schools, churches, paved streets, and street car lines. The streets are brought to the established grade of the city; cement sidewalks in front of every lot, and good shade.

There never was a time like the present for investing in Des Moines property with such certainty of a LARGE PROFIT.

THE BEST is Always the Cheapest.

It ought to be the ambition of every young man so to invest his earnings that at the end of a few years he will have a portion of his income in a tangible shape and thus lay the foundation of his future success in life. It has been well demonstrated by the experience of the most successful business men that there is no stimulus to saving so great as the purchase of a piece of good real estate. The obligation entered into spurs the ambition of every young man to make his payments promptly, and in his own mind he always has a ready answer to every proposition for extravagant expenditures. There are hundreds of young men in this city who are rapidly accumulating a snug little "nest egg" with which to go into business some day. Money loaned on mortgage is safe and sure, but the profits are small and fixed.

The Bates Addition Improvement Company,

Will give you an opportunity to put in practice this idea and at the same time sell you a lot in a way that your business will never feel it.

The site is among the most beautiful in the city and is in the hands of a syndicate composed of some of the young and pushing business men. The evidence is that Des Moines residence property is on a rising market and no one can miss it by investing in such cream, gilt-edged lots as those in Bates' addition.

*The Following Open Letter Fully Explains Itself:*

CHICAGO, February 14, 1889.

TO WHOM IT MAY CONCERN:

Greeting: We wish to state—UNSOLICITED—that as a reader, Miss Bertha Marie Parce is one of the finest readers and entertainers on the American rostrum.

Lecture and entertainment committees cannot do better than to secure her professional services for an entertainment.

We stake our reputation upon what we say for our students.

Respectfully,

H. P. ROUNTREE,

MARY LYON ROUNTREE,

Principals of the Chicago School of Oratory:

**Testimonials From Albion (Mich.) College.**

**PRESIDENT FISK:** Miss Parce is an elocutionist of great naturalness of expression.

**PROF. SAMUEL DICKEY:** She is sure to please her auditors.

**The Recorder:** Although Miss Parce has often appeared in public here, the immense hall crowded with people of refinement and literary tastes last Tuesday evening, was a high compliment to the young lady.

**The Courier:** As a vocalist she has large compass, as well as great power and sweetness of voice.

**The Statesman:** Miss Parce is an elocutionist and vocalist of fine ability.

**Cedar Rapids Republican, February, 1889:** Miss Parce more than delighted her hearers by her versatility and power. The selections rendered called for every quality of voice, and each was perfectly given with the ease and grace which marks the master of the profession. In her vocal numbers Miss Parce was no less happy than in recitation. She possesses a rich soprano voice finely cultivated.

**San Francisco Testimonials.**

**ART AMATEUR STAGE:** Her eloquence is unsurpassed, and her gestures most graceful.

**CENTRAL M. E. CHURCH:** Has no hesitation in recommending Miss Parce either in song or recitation.

**SAN FRANCISCO CALL:** Her reading and illustrations of the Delsarte movements are most delightful. She is among the leaders in her profession.

**NOZALES (ARIZONA) HERALD:** See has few superiors in the world of song or on the rostrum. Her entertainments here were decidedly the best ever given in the city.

**BRANCH OFFICE, 609 W. WALNUT ST.**

**E. T. M. HURLBUT, M. D.,** Consulting Physician.

Office hours, during the day and evening, 8 to 9. Sunday, 9 to 10 a. m. and 3 to 4 p. m.

**THIS TREATMENT IS ENDORSED BY THE LEADING PHYSICIANS OF THE U. S.**

Offices also at Denver, Col., St. Louis, Mo., Detroit, Mich., Butte City, Mont. and Portland, Oregon. Where, for the past five years, hundreds have been cured.

We perform no Surgical Operation.

We are not selling Trusses, but are Curing Rupture.

Patients are protected against accident from the first treatment until cured.

**To The People of The State of Iowa.**

It is with feelings of gratification that we are able to open an office in Iowa under such favorable circumstances. During the past four years we have been receiving inquiries from Iowa and surrounding States; but upon finding that personal attention was necessary, hundreds were not able to receive relief, by reason of the great distance between them and our other offices. Of late the demand upon us has been so great that we have decided to open an office in Des Moines.

Just a word as to our responsibility. The Company has filed Articles of Incorporation in accordance with the laws of Iowa, with a paid up capital of \$60,000, and are financially prepared to stand by any agreement we may make. We give a bond or written guarantee to each patient to effect a cure or refund the money, backed up by the best financial references. Call or write for further references.

Our charges, in view of benefits conferred, are reasonable.

Yours truly,

THE O. E. MILLER Co.

JOHN WYMAN, President.

E. C. SPINNEY, Secretary.

## REMEMBER

The Iowa Deposit and Loan Company is legally incorporated under the laws of Iowa.

The Company's contract with its shareholders is simple and definite.

The Iowa Deposit and Loan Company pays a larger cash surrender value than any other company, and states the amount definitely.

The Company's management is conservative and safe.

The Company does not speculate with the funds of its depositors, but invests the same in first mortgages on real estate.

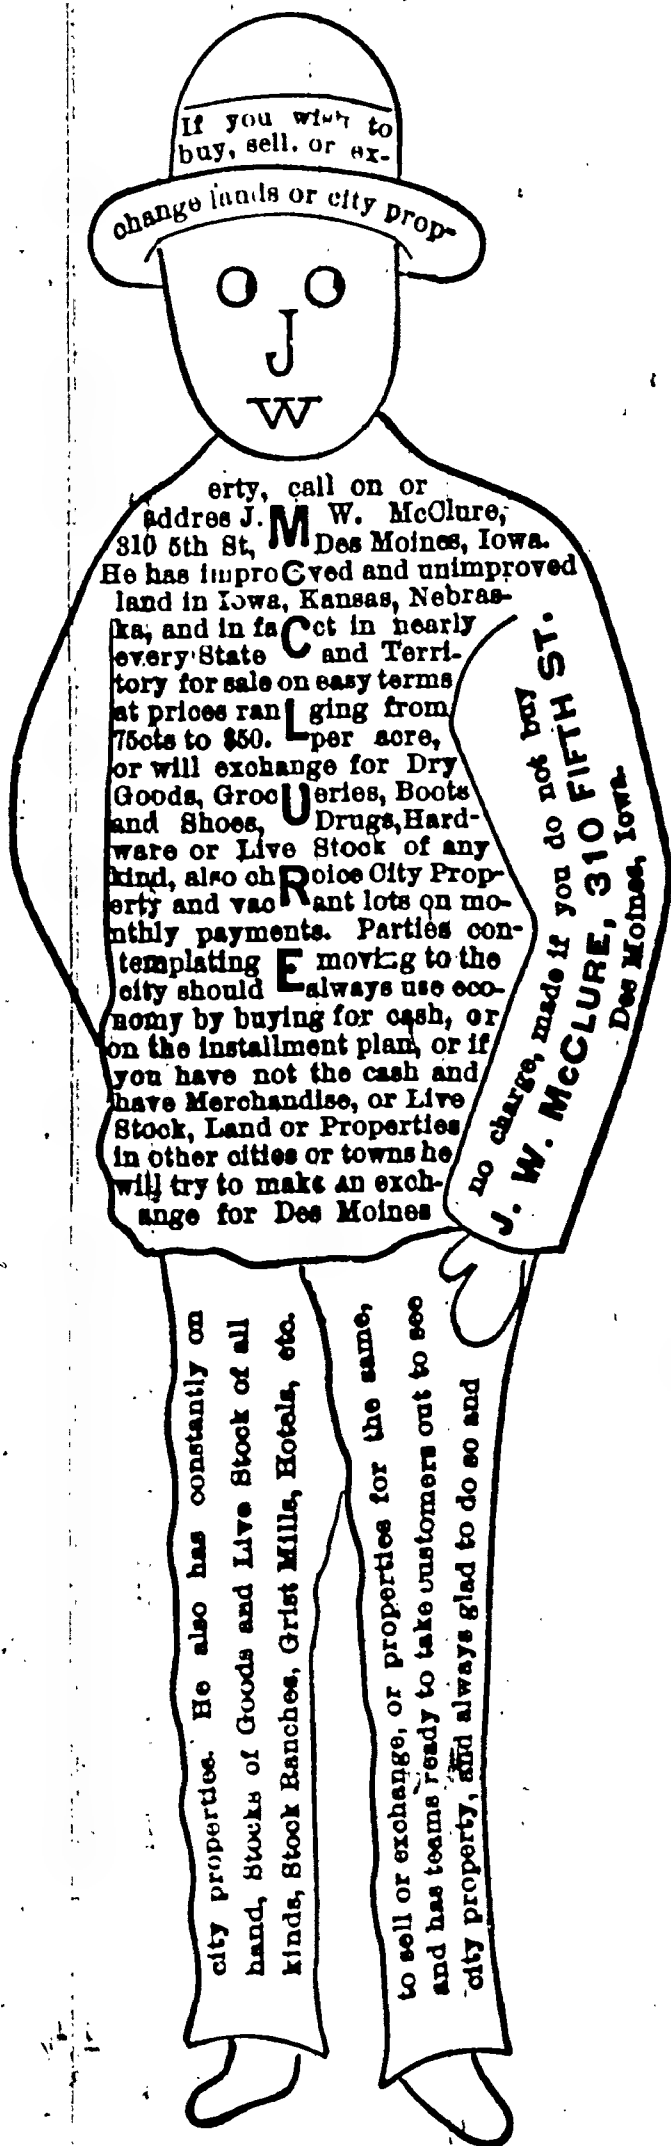

The Company places its mortgages in the custody of the DES MOINES NATIONAL BANK as Trustee, for the protection of its shareholders.

CORRESPONDENCE SOLICITED.

THE

1891.

# Washington Life Insurance Co., OF NEW YORK.

W. A. BREWER, JR.,

PRESIDENT.

ASSETS, - \$11,000,000.

**The First Thing to be Considered in Life Insurance Investments is Safety.**

THE INVESTMENTS of THE WASHINGTON are Bonds and Mortgages (first liens on real estate), and United States and New York State Stocks and Bonds, in compliance with the Laws of the State of New York.

The excellent quality of THE WASHINGTON's investments is seen in the fact that on the first day of June, 1890, there remained only about one-half of one per cent. of interest due and unpaid.

**The Policies of the Washington are easily defined.**

THEY ARE—Non-forfeitable.

THEY ARE—Unrestricted as to residence and travel after two years.

THEY ARE—Incontestable after two years.

THEY ARE—Secured by an Invested Reserve.

THEY ARE—Solidly backed by Bonds and Mortgages, first liens on Real Estate.

THEY ARE—Safer than Railroad Securities.

THEY ARE—Not affected by the Stock Market.

THEY ARE—Better paying investments than U. S. Bonds.

THEY ARE—Less expensive than Assessment Certificates.

THEY ARE—More liberal than the law requires.

THEY ARE—Definite contracts.

Immediate settlement of claims.

All Life Policies contain guaranteed cash surrender values FOR THE FULL RESERVE.

# IOWA IMMIGRATION BUREAU,

J. P. BUSHNELL, Commissioner.

General Office, Des Moines.

Rooms 409 and 410 Iowa Loan and Trust Building.

A Commissioner for each County and a Correspondent for each City and Town in the State.

The Bureau will co-operate with the various Boards of Trade, Citizens' Associations and Real Estate Associations of our State, and all enterprising bodies interested in the development of the vast and varied resources of Iowa.

In view of the fact that Iowa has no immigration commission to look after the development of her resources by inviting the better class of immigrants to locate in this state, it is left entirely to the enterprising citizens of the state to do this work, and for this purpose the Iowa Immigration Bureau was organized, as a business association, for the general good of the state, but we must necessarily ask the co-operation of her enterprising citizens.

The objects of the Bureau are to invite Immigration, Promote Industrial Enterprises, and Encourage Every Laudable Undertaking Calculated to Develop the Material Interests of Iowa.

Many inquiries are being received from eastern parties with reference to new locations for the establishment of various industries, and what these parties want, especially, is to know the resources and advantages and the enducements offered for all kinds of agricultural and mechanical pursuits, and desirability as a home.

The Bureau will publish a new work entitled

## IOWA RESOURCES and INDUSTRIES,

Information for Those Seeking New Homes or Business

Locations in the West.

A Hand Book of Useful Information of Iowa is being compiled and will be published as soon as full information of the resources and advantages of our state is secured. For the information of those looking for new homes in the West it will be important, also to us as a State, that all learn the fact that Iowa is the most inviting field for the capitalist or home-seeker.

The publication will be a reference work setting forth the resources and advantages of the state in general, its history, topography, agricultural and mineral resources; mining and manufacturing interests; stock raising; dairying; horticulture; forestry; educational interests; railway facilities; reports of the state institutions giving the officers of each, and state, county, city and town officers; a directory of the educational institutions of the state; census of Iowa in 1890; complete postoffice and newspaper directories, and information for those seeking new homes or investment for capital, etc., etc.

Our State and county officers are giving us every encouragement, but we ask the co-operation of all enterprising citizens of our State. As soon as the publication is ready for delivery we will so inform the public through the newspapers of our State.

# HIGHLAND PARK NORMAL COLLEGE, Des Moines, Iowa.

**Over 800 different students enrolled during the first year of its existence.—The most thoroughly equipped Normal College in the United States.—A school where a student may fit himself for any profession.—Thoroughly Christian but non-sectarian.—Fall term opens September first.**

**FACULTY.**—In organizing the Faculty of Highland Park Normal College, great care was used in selecting the teachers. Every teacher selected was chosen because of his ability to teach. The success of the school during the present year has demonstrated that no mistake was made in the selection of teachers. Students have been delighted with their work, and visitors have found that the work in all departments was the very best. Students who attend school here have the advantage of being instructed in every class by men thoroughly competent in every particular.

**ACCOMMODATIONS.**—The accommodations at Highland Park Normal College are not equalled by any other school in the West. The College Building itself is provided with large, light, airy recitation rooms that are models of neatness and taste. The rooms for students are all that could be desired. They are large, light, airy, heated by steam, lighted by electricity, water on every floor of the buildings and every convenience that the student needs. Everything is new, clean and neat. Every one who has visited the school is willing to agree that our accommodations are not equalled by any other school in the State.

**EQUIPMENTS.**—The equipments are all that any school could ask. In the line of Mathematics we have everything that is needed to illustrate the work, from the lowest work in arithmetic to an extensive Engineering course. We have a fully equipped Electrical Engineering school, and a special electrician in charge. The Pharmacy school is as complete as there is in the West. In the work of Chemistry, Philosophy and Natural History, everything is provided that is needed to illustrate these subjects. Students can not afford to attend institutions that are not well equipped in these lines.

**LIBRARY.**—The large library and book room furnishes every convenience in the way of room for the accommodation of students. Besides the Encyclopedias and reference books and papers and periodicals which are in the reading room, we have a book room containing 4,000 volumes of History, Science and standard books of the day. These have been thoroughly catalogued by Mrs. S. B. Maxwell, the State Librarian, and is in charge of a competent librarian, who gives her entire time to the interest of the library and the students. This is an important feature in school work.

**COURSES OF STUDY.**—Preparatory or Review, Didactic, Special Didactic, Special Training, Scientific, Classical, Literary, Civil Engineering, Electrical Engineering, Pharmacy, Business, Music, Art, Telegraphy, Short-hand and Typewriting, Elocution.

**EXPENSES.**—Board, \$2.00 a week; tuition, \$1.00 a week; room rent, 50 and 60 cents a week; electric light, 20 cents a week; heat, 30 cents a week, all payable in advance by the term. \$140 pays for board, tuition, room rent, for one year of 44 weeks. \$154.00 pays for board, tuition, room rent, heat and light for one year of 44 weeks. Send for illustrated catalogue. Address,

O. H. LONGWELL, A. M.,  
President Highland Park Normal College, Des Moines, Iowa.

# LOWRY W. GOODE, REAL ESTATE BROKER.

City and Suburban Property for Sale.

Money Invested for Non-Residents.

We Would Call Special Attention to  
**BOSCOBEL.**

This is one of the choicest and highest-priced residence properties in Des Moines. It is located at the corner of Seventeenth and Pleasant streets, in Brown's Addition, adjoining the elegant residence of Major Hoyt Sherman. The addition comprises eight large lots as shown by plat sent you upon which the dimensions are marked. These lots are covered by good shade trees, are seeded with blue grass sod, and are located upon one of the highest elevations in the city, commanding a beautiful view of a great part of West Des Moines and hills beyond. It is in the heart of the best residence part of the city, surrounded by high priced properties. Seventeenth street is paved with brick pavement, and both Pleasant and Seventeenth streets are sewered. Water, gas and all city conveniences are about it.

One great advantage of this property lies in the fact that it is the only ground in this neighborhood where an extra deep lot can be secured, all others being only 130 feet deep. The lots facing on Pleasant street are held at the uniform price of \$100 per front foot, those facing on Seventeenth street at \$75 per front foot. These prices include the grading and smoothing down and sodding of the fronts of each one of the lots and a cement sidewalk six feet wide around the entire tract. Correspondence is requested and information will be truthfully furnished, maps sent, and in case of a personal visit to Des Moines, myself or some one connected with my office will gladly show customers any property in the city which they may desire to examine.

### MUSICAL ORGANIZATIONS.

The Iowa State Band—was organized in the spring of 1890 with a cash capital of \$10,000. Their instruments are silver plated, and of the most celebrated make in the world. They have given thousands of concerts all over the northwest, delighting all who have heard them play. The Iowa State Band has become a household word in Des Moines. The officers are as follows: President, George C. Newman; Vice President, W. W. Fink; Secretary and Treasurer, John E. New-

man; General Manager and Musical Director, Frederick Phinney; Business Manager, C. H. Dunn. The Directors are: D. B. Lyons, J. M. Shuck, John E. Newman, Frederick Phinney and George C. Newman and W. W. Fink.

Following are the musicians composing The Iowa State Band:

Julius Oberton, Drum and Traps; Robert McLaren, Bass Drum; H. Hickok, double bass Helicon; A. A. Ramsey, E Tuba; M. R. Davis, E Tuba Prin.; J. C. Vincent, Antoinophone; F. C. Kendall, Euphonium; C. Griswold, Trombone; H. Herring, Bass Trombone; Carl von Coelln, Trombone; J. Henry Fischer, Trombone; C. Carlson, Baritone; H. Long, Orchestral Horn; C. B. Way, Orchestral Horn; S. Lister, Orchestral Horn; E. H. Johnson, E flat Cornet; Cass Ramsey, B flat Cornet; W. B. Tompkins, B flat Cornet; Rodney Malone, Solo B flat Cornet; Patsy Conway, Solo B flat Cornet; Al. Hayes, Fliegel Horn; Wm. Lansberry, Tuba; George Redhead, Bass Clarionette; M. D. Hess, Alto Clarionette; Arthur Cox, B flat Clarionette; Arthur Davis, Solo B flat Clarionette; E. P. # DES MOINES COLLEGE,

REV. H. L. STETSON, D. D., President.

It is situated in one of the most beautiful and healthful portions of the city. The oldest and best equipped college in the city, having an endowment of \$100,000. Its faculty is composed of thoroughly educated and experienced instructors, furnishing the highest grade of college work. This college has never sought for large attendance, yet the number of students this past year was double that of the preceding year. The Faculty prefers to make the work of a high grade and leave this to win popular favor.

IT HAS AN ACADEMIC AND COLLEGIATE DEPARTMENT.

There are Four Courses of Study Provided, viz: Classical, Philosophical, Scientific and Literary.

The Academic course prepares students for entrance to the best Eastern Colleges, and in any part of the course students are prepared to enter the corresponding classes in such other schools. There is also a department of Music in which are teachers fully qualified to give the best instruction. This department has been rapidly growing and it is the purpose of the management to keep fully abreast of the demand for the best musical training.

*It is open to all persons on the same terms.*

## ORCHESTRA AND MILITARY BAND.

OFFICE 216 WEST FIFTH STREET.

DES MOINES. - IOWA

## OFFICERS.

GEO. C. NEWMAN, President  
W. W. FINK, Vice President  
FREDERICK PHINNEY,  
Manager and Musical Director  
JOHN E. NEWMAN,  
Secretary and Treasurer.

THE IOWA STATE BAND was organized by FREDERICK PHINNEY in 1886. A great deal of money has been expended for the finest instruments in the world, and the association are determine to keep it as it now is - one of the very best bands in the country. The band has created a wide-spread reputation, and its playing has been applauded by the people throughout the country wherever it has played. Their rendition of music is exquisite, and the public congratulates the management for their ability, courage and success in establishing a band which ranks as the peer of the whole northwest.

## PRESS NOTICES.

The Iowa State Band that we heard last night was the real State Band. Recently there have been so many demands for this celebrated Band that it has been obliged to accomplish the impossible feat of being in more than one place at a time. But last night the whole band was here, from Prof. Phinney down to the humblest member: they were all there, and how they did play! Nearly every piece that was played was greeted by the crowd with applause that was deserved. The fine and difficult points in the work of the band may escape all but a critical few, but the general public is quick to appreciate and applaud the work of the band. —IOWA STATE REGISTER.

When the Iowa State Band plays the whole air is full of music. The instruments blend perfectly, making one full and complete harmony. There is no blast and blare and bursting tone, but a soft mellowness that is a delight to the ear. Is it the material of which the instruments are made, or is it the manner in which they are played that makes the Iowa State Band differ in this respect from other good bands. —DES MOINES LEADER.

The Iowa State Band is an organization of the best musical talent obtainable, led by an expert musical director, run as a business institution, and backed by a number of the progressive business men of the city. It cannot fail to achieve the great reputation it aims for—that of being enrolled upon the list of the best band organizations in the United States. The membership of the band comprises a company of skilled musicians and perfect gentlemen. —DES MOINES MAIL AND TIMES.

Des Moines has done many graceful things, \* \* \* but the best thing Des Moines has done is in furnishing the material that has made the IOWA STATE BAND possible. We confidently believe that never has there been in the State of Iowa a musical organization which has served the people with so much satisfaction, and refined their musical tastes, as this splendid Band. We are pleased that we have one organization in our State that can sit for evening after evening and correctly interpret the great works of our greatest masters. One of the pleasing features of this Band is that it is void of the harsh sounds which are so common in the ordinary brass bands, and the longer they stay the more their music is appreciated and loved. —OTTUMWA COURIER.

# IOWA STATE AND COUNTY DIRECTORY

FOR 1891-92.

The acknowledged need of a complete and reliable State Business Directory, and the necessity for a State Directory of the Farmers, induced the proprietors of the Dubuque Telegraph to undertake, a few months since, the task of securing the necessary information for the above named work, for publication.

There had been organized in Des Moines also, a company known as the IOWA DIRECTORY COMPANY, whose object was the publication of State, County and City Directories; and the purpose of the two being so nearly identical, a consolidation has recently been effected whereby the two companies have become one, and will thus compile and publish the IOWA STATE AND COUNTY DIRECTORY. This publication will be a highly valuable work containing not only the names of the business firms of our State classified and arranged alphabetically by counties and towns, but it will contain the names of the farmers of Iowa, by counties, giving their post office address.

It will have sketches of cities and towns; reports of all state institutions; state, county, city and town officers; a new railroad and county map of Iowa, transportation facilities, and officers of the various railroad companies; a complete post office and newspaper directory of the state; facts and references for those seeking new homes or business locations, and much other information of great value to all interested in the prosperity of our great commonwealth, as well as to all interested in Iowa trade. From the value of the work and its low price, it will be found in all the public places and principal business houses throughout the state, thus rendering it a valuable advertising medium. Many subscriptions and advertisements have also been received from leading business houses in the principal cities of the country, giving it such an extended circulation as will be of great value to our state and a benefit to all its patrons.

There are a number of new features introduced by us which render it materially different and more valuable than any previous directory of Iowa, and from its contents it will be seen that it is a necessity to every enterprising business man interested in Iowa.

Mr. J. P. Bushnell, Commissioner of the Iowa Immigration Bureau, has consented that the work entitled "Iowa Resources and Industries," which he is now preparing for publication—a most complete reference work of the state itself—shall appear as the introduction to our state work. The compiler and publishers of this work are Iowa men, and are taking every care, and sparing no expense, to issue a publication creditable alike to the state, patrons and the ourselves. It will contain about two thousand pages, will be printed on good book paper, bound in a substantial manner, and will be issued biennially hereafter.

The subscription price—five dollars—is low, but we want this work placed everywhere. Advertising rates:—1 page, \$40;  $\frac{1}{2}$  page, \$25;  $\frac{1}{4}$  page, \$15. Size of pages:— $4\frac{1}{2} \times 7\frac{1}{2}$  inches. Our agents are supplied with the prospectus of our work, with credentials from the manager of the company.

The names of all subscribers and advertisers will be inserted in a conspicuous manner, free. No payments received in advance, but only on delivery, and return of your order.

For any information address

**IOWA DIRECTORY COMPANY.**

**Des Moines, Iowa**

# IOWA STATE AND COUNTY DIRECTORY.

For 1891-92

A reference work setting forth the Resources and Advantages of the State in general; its History, Topography, Agricultural and Mineral Resources; Mining and Manufacturing Industries; Stock Raising; Dairying; Horticulture; Forestry; Educational Interests; Reports of the State Institutions; Also Census of Iowa in 1890; A Classified Business Directory arranged alphabetically by counties and towns; a Directory of the Farmers, arranged by counties, giving the post office address of each; complete Post Office, Newspaper and Bank Directories; Railway Facilities; Information for those seeking New Homes or Investment for Capital, etc., etc.

The information indicated by the above topics, together with other matter, is designed to make the book a practical reference work of the state.

## REVIEW OF COUNTIES—Alphabetically Arranged.

Under this division of the work will be given the Organization, Population, Resources and Advantages for Manufacturing, Trade and General Business, and mention of the Leading Business Men of the various Cities and Towns. The following specimens will indicate the manner in which the business directory will be arranged.

# IOWA POST - OFFICE DIRECTORY..

## A COMPLETE LIST OF ALL POST-OFFICES IN THE STATE, WITH MONEY ORDER OFFICES AND COUNTY SEATS.

County seats are indicated by SMALL CAPS. An Asterisk (\*) after a name indicates a money order office authorized to issue and to pay money orders and postal notes, and a dagger (†) indicates an international money-order office.

### RATES ON POSTAGE, ETC.

Rates to the United States and Canada.

**First Class.**—Letters and all other written matter, whether sealed or unsealed, and all other matter sealed, nailed, sewed, tied or fastened in any manner, so that it cannot be easily examined, two cents per ounce or fraction thereof. Postal cards one cent each. Postal cards are unmailable with any writing or printing on the addressed side, except the direction, or with anything pasted upon or attached to them.

**Second Class.**—Newspapers and periodical publications when sent by publishers or news agents, one cent a pound or fraction thereof. Newspapers and periodical publications sent by persons other than the publishers and news agents, one cent for every four ounces or fraction thereof.

**Third Class.**—Printed matter in unsealed wrappers only (all matter enclosed in sealed envelopes notched on the sides or corners must pay letter rates), one cent for each two ounces or fraction thereof, which must be fully prepaid. This includes books, circulars, chromos, hand bills, engravings, lithographs, magazines, music, pamphlets, proof-sheets, manuscripts accompanying the same, reproductions by the electric pen, hektograph, metallograph, papyrograph, photographs and blue prints, and, in short any reproduction upon paper by any process, except handwriting, typewriting, and the copying press, not in the nature of a personal correspondence. Limit of weight, four pounds, except for a single book, which may weigh more. Third class matter must be fully prepaid, or it will not be forwarded.

**Fourth Class.**—All mailable matter not

included in the three preceding classes, which is so prepared for mailing as to be easily withdrawn from the wrapper and examined. Rate, one cent per ounce or fraction thereof. Limit of weight, four pounds. Full prepayment compulsory.

**Unmailable Matter.**—Obscene books, letters, papers, pictures and postal cards, lottery circulars and letters, liquids, (except as permitted in the regulations), gunpowder and other explosives, live reptiles, animals and insects (except queen bees), poisons, and any article liable to injure the mail or the person of those handling them.

**Re-forwarding.**—Letters will be re-forwarded from one postoffice to another upon the written request of the person addressed, without additional charge for postage; but packages of third and fourth class matter cannot be forwarded or returned without a new payment of postage.

Proprietors of hotels should omit the return request of envelopes supplied gratuitously to their guests; and guests using such envelopes should be careful to designate what disposition should be made of letters sent by them in case they cannot be delivered.

The limit of weight for a single rate of postage on letters to Canada is one ounce. On letters for other foreign countries, the limit of weight for a single rate is half an ounce.

Mail matter of all kinds received from any foreign country of the Postal Union is required to be re-forwarded, and at the request of the addressee, from one postoffice to another, or to any foreign country embraced in the Postal Union, without additional charge for postage.
